Juan Dominguez-Bendala  
University of Miami School of Medicine, USA

Ming Pei  
West Virginia University School of Medicine, USA

Marlene Shehata  
University of Ottawa, Canada

Shohta Kodama  
Fukuoka University, Japan

Qiurong Li  
Jinling Hospital, China

Jude Uzonna  
University of Manitoba, Canada

Abdullah M S Al-Osaimi  
University of West Virginia Health System, USA

https://organtransplantation.conferenceseries.com/
**Venue**
Tokyo, Japan

**Important Dates**
Abstract submission opens: September 10, 2017
Registration opens: September 12, 2017
Early bird registration: January 22, 2018
On spot registration: August 24, 2018

**Accommodation**
A large number of rooms have been reserved. Discounted room rates for Organ Transplantation 2018 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

**Exhibition and Sponsorship**
An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Organ Transplantation and Artificial Organs Researchers.
Tokyo officially known as Tokyo Metropolis, is the capital of Japan and one of its 47 prefectures. The Greater Tokyo Area is the most populous metropolitan area in the world. It is the seat of the Emperor of Japan and the Japanese government. Tokyo is in the Kantō region on the southeastern side of the main island Honshu and includes the Izu Islands and Ogasawara Islands. Formerly known as Edo, it has been the de facto seat of government since 1603 when Shogun Tokugawa Ieyasu made the city his headquarters. It officially became the capital after Emperor Meiji moved his seat to the city from the old capital of Kyoto in 1868; at that time Edo was renamed Tokyo. Tokyo Metropolis was formed in 1943 from the merger of the former Tokyo Prefecture and the city of Tokyo.

Tokyo is often referred to as a city, but is officially known and governed as a “metropolitan prefecture”, which differs from and combines elements of a city and a prefecture, a characteristic unique to Tokyo. The Tokyo metropolitan government administers the 23 Special Wards of Tokyo (each governed as an individual city), which cover the area that was the City of Tokyo before it merged and became the metropolitan prefecture in 1943. The metropolitan government also administers 39 municipalities in the western part of the prefecture and the two outlying island chains. The population of the special wards is over 9 million people, with the total population of the prefecture exceeding 13 million. The prefecture is part of the world's most populous metropolitan area with upwards of 37.8 million people and the world's largest urban agglomeration economy. The city hosts 51 of the Fortune Global 500 companies, the highest number of any city in the world. Tokyo ranked third in the International Financial Centres Development Index. The city is also home to various television networks such as Fuji TV, Tokyo MX, TV Tokyo, TV Asahi, Nippon Television, NHK and the Tokyo Broadcasting System.
