Venue

Brisbane, Australia

Important Dates

Abstract submission opens: September 15, 2018

Registration opens: September 20, 2018

Early bird registration: January 22, 2018

On spot registration: June, 2019

Accommodation

A large number of rooms have been reserved. Discounted room rates for Organ Transplantation 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Organ Transplantation.

About Brisbane

A river curving and curling its way around the landscape makes Brisbane one of the most unique capital cities in Australia. Brisbane came into being long before the state of Queensland was established, when intrepid Surveyor General John Oxley named the river he discovered after the Governor of New South Wales – Thomas Brisbane – in 1823 Brisbane is one of the fastest-growing capital cities in Australia in terms of population and employment. Our residents are young and skilled, highly educated and culturally diverse. The Australian economy recorded its 22nd consecutive year of growth in 2012-13 and is projected by the IMF to record growth double the OECD average in 2013. Brisbane is recognized as one of the fastest-growing regions in Australia, driving Queensland's economic growth. Brisbane is the capital city of Queensland – Australia's second largest state by area. In addition to being the third most populous city in Australia, Brisbane is the largest of Australia's six capital cities by geographic area and the third largest in the world, occupying some 1,140 km². The Commonwealth of Australia is an independent Western democracy with three tiers of government – federal, state and local. In terms of governance, the nation's institutions and practices reflect British and North American models but remain uniquely Australian. As Australia's new world city, Brisbane is built on a strong foundation of infrastructure. Assets include: a world-class international airport; a busy international port; a comprehensive road and rail network; a fully-integrated public transport and ticketing system; vibrant entertainment and sporting venues; and an exceptional range of accommodation options. Pack a hat and a bottle of sunscreen. With 12 months of sunshine filled days and clear blue skies, Brisbane has a climate that sets the scene for year-round alfresco activities. Even in the midst of a Brisbane winter you'll be yearning to play in the parks and dine outdoors.
