Our Programme

Medical doctors, patients, and health care providers consider the prevention of orthopaedic diseases as an essential tool to improve the general health status of the population. The proportions of people suffering from the disease are expected to increase in future according to a recent statistical survey. Sports medicine is one of the most important topics, with members from around the world focused on learning about sports, physical health, and other sports-related activities; this is your single best opportunity to reach the largest assemblage of participants from the sports and health community.

Orthopaedics & Sports Medicine Conference provides a global platform for exchanging ideas and makes us updated about the latest innovations in orthopaedics and sports medicine. It provides an opportunity to attend the presentations delivered by eminent scientists from all over the world.

Venue & Hospitality

Dubai is a city in the United Arab Emirates, located within the emirate. The emirate of Dubai is located on the southeast coast of the Persian Gulf and is one of the seven emirates that make up the country. It has the largest population in the UAE (2,106,177) and the second-largest land territory by area (4,114 km₂) after Abu Dhabi. Is one of the few cities in the world that has undergone such a rapid transformation - from a humble beginning as a pearl-diving center - to one of the fastest growing cities on earth. Dubai today is a tourism, trade and logistics hub and has earned itself the reputation of being the 'gateway between the east and the west.

Dubai is already renowned as the business capital of the Middle East Region. It is now fast becoming the regional capital for healthcare as well. Dubai is giving a world-class treatment for orthopedic affected folks in the metropolis.
