

Conference Funding Policy

Student Conference Funding is provided by the scientific committee of the conference and is managed by the Student Program Office. The goal of the funding is to enable students to make presentations in the conference which will be the encouragement to the upcoming young researchers. This will be a good opportunity to know more about on-going research and can also to discuss directly with the global experts. This funding is available only to the students on an individual basis.

If you have submitted an abstract to present at the conference, you have to wait until it is accepted to apply. The scholarship is awarded on a first come, first serve basis. The fund which you receive will cover 2 nights' accommodation/ partial registration fee.

Note: We won't provide travel fund

Students should apply for conference funding after submitting the abstract to the conference. If at any time the student decides they will not attend the conference, the student should notify the Student Programs Office immediately.

Student will be notified of the scholarship within 3-4 working days after applying for the fund. The money will not be given; it is directly deposited into the student's accommodation/ partial conference registration amount.

Application Process:

Student must submit the abstract and apply for student scholarship through mail:
particle@physicsconferences.org

With Thanks,

Preity Sae

Program Director
