conference**series**.com 09:30-10:00

Opening Ceremony

Keynote Forum

09:30-09:35 Introduction

10:00-10:45 **Title: 14-3-3epsilon Controls Multiple Developmental Processes in the Mouse Heart**
Luca Brunelli, University of Nebraska Medical Center, USA

Networking & Refreshments Break 10:45-11:00

11:00-11:45 **Title: Functional, quality of life, and neurodevelopmental outcomes after congenital cardiac surgery**
Megan L Ringle, Stanford University School of Medicine, USA

Sessions: Pediatrics | Pediatric Congenital Heart Disease | Pediatric Heart Murmurs | Fetal Cardiology | Pediatric Pericarditis

Session Chair: Jerard Seghatchian, International Consultancy in Blood components Quality/Safety Improvement, Audit/ Inspection and DDR Strategies, UK

Session Introduction

11:45-12:30 **Title: Newer Standardised and Cost Effective Management approaches for prophylaxis of Pediatric hemophiliacs, with recombinants and long-acting fviii & fix drugs, using chromogenic assays: A concise review**
Jean Amiral, Hyphen BioMed, France

Lunch Break 12:30-13:30

13:30-14:00 **Title: Problem of heart rate disturbances in endurance athletes - are heart rate monitors valuable tools for diagnosing arrhythmias?**
Robert Gajda, Gajda-Med Medical Center, Poland

14:00-14:30 **Title: Implementation of a new protocol for Patent Ductus Arteriosus medical closure in premature infants less than 28 weeks and 1000 grams: Practice in a French level-III hospital**
Elie Ghossoub, Paris-Decartes University, France

14:30-15:00 **Title: Cognitive development of school-age hypoplastic left heart syndrome survivors: A single center study**
Raphael Oberhuber, Kepler University Hospital, Austria.

15:00-15:30 **Title: Femoral arterial cannulation performed by residents: A comparison between ultrasound-guided and palpation technique in infants and children undergoing cardiac surgery**
Roland Kaddoum, American University of Beirut Medical Center, Lebanon

Networking and Refreshment Break 15:30-15:45

15:45-16:15 **Title: Long-term postnatal steroid effect in very low birth weight infants**
YoungAh Youn, Seoul St. Mary's Hospital - The Catholic University of Korea, South Korea

16:15-16:45 **Title: Myocarditis revisited: Few unusual cases of myocarditis – experience in an Indian tertiary care centre**
Debadatta Mukhopadhyay, West Bengal University of Health Sciences, India

16:45-17:15 **Title: Registry of Saudi Heart Disease and Pregnancy: The ROSHDAP study**
Faisal Alatawi, Taibah University, Kingdom of Saudi Arabia

Panel Discussion

Day 2 February 20, 2018

Conference Hall

Keynote Forum

10:00-10:45 Title: **BMS-986231, A novel HNO donor as a potential therapy for acute heart failure patients**
Maria Borentain, Bristol-Myers Squibb, USA

Networking & Refreshments Break 10:45-11:00

Sessions: Clinical Pediatrics | General Pediatrics | Pediatric Cardiac Surgery | Tetralogy of Fallots | Pediatric Kawasaki Disease

Session Chair: Maria Borentain, Bristol-Myers Squibb, USA

Session Introduction

11:00-11:30 Title: **Failing heart in patients suffering duchenne muscular dystrophy: A disease animated by compromised genome of stem cells**

Vladimir Rotrekl, Masaryk University, Czech Republic

11:30-12:00 Title: **Prenatal screening for 22q11.2 Deletion Syndrome: an opportunity to improve neonatal management for a common cause of congenital cardiac defects**

Peter Benn, UCONN Health, USA

12:00-12:30 Title: **When to invest in clinical guidelines for children? A practice oriented tool to facilitate decision-making**

Inge Schalkers, De Hart & Vaatgroep, Netherlands

Lunch Break 12:30-13:30

13:30-14:00 Title: **A "sick" rhythm alerts onset of serious vascular disease**

Guillermo Torres Viera, University of Puerto Rico, USA

14:00-14:30 Title: **A novel mechanical mitral valve replacement using Sapien XT**

Megan Koehle, Ludwig Maximilian University, Germany

Poster Presentations 14:30: 16:00

P1 Title: **Atypical and incomplete Kawasaki- A silent spectrum with significant coronary changes : Experience in an Indian tertiary care hospital**

Debadatta Mukhopadhyay, Medical College, India

P2 Title: **A Case of Transcatheter Occlusion of a Giant Pulmonary Arteriovenous malformation using the Amplatzer vascular plugs and interlocking detachable coils in a 1-year-old child**

Yun Ju Lim, Jeju National University School of Medicine, South Korea

P3 Title: **A transcatheter approach to serial obstructions in an infant with Shone's Complex**

Guillermo Torres Viera, University of Puerto Rico, USA

P4 Title: **Physical Capacity in children with Congenital Heart Disease: Experience of a Chilean Pediatric Cardiovascular Center**

Bernardita Lopetegui, University of Chile School of Medicine, Chile

P5 Title: **MPAM-Mycoplasma Pneumoniae Associated Mucositis: A Diagnostic Challenge**

Frances Gonzalez Figueroa, University of Puerto Rico, USA

P6 Title: **Utility of Cardiac Magnetic Resonance Imaging In The Diagnosis of Left Ventricular Noncompaction In Patients With Left Ventricular Hypertrabeculation diagnosed initially using Echocardiography**

Jennifer Pak, Children's Hospital of New Jersey, USA

P7 Title: **The role of tumor necrosis factor and cytokine in the clinical course of cardiomyopathy in children**

Akhmedova Nilufar, Tashkent Pediatric Medical Institute, Uzbekistan

P8 Title: **Indicators of Tissue Enzymes in Cardiomyopathies in Children**

Khadjieva Zilola, Tashkent Pediatric Medical Institute, Uzbekistan

Networking & Refreshments Break 16:00-16:15

Award Ceremony
