An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of all the advancements in the field of Pediatrics.

About Berlin

Berlin is the capital and the major city of Germany, as well as one of its 16 constituent states. With a progressively growing population of approximately 3.7 million, Within the terms of population, Berlin is that the Second most populated town within the global organization and therefore the seventh most occupied geographical area within the global organization. Situated in northeastern Germany on the banks of the rivers Spree and Havel, it is the center of the Berlin-Brandenburg Metropolitan Region, which has coarsely 6 million residents. Due to its place in the European Plain, Berlin is prejudiced by a temperate seasonal climate. Around one-third of the city's area is self-possessed of forests, parks, gardens, rivers, canals and lakes. Berlin is an environment city of culture, politics, media and science. The metropolis is a general tourist terminus. Significant industries also comprise IT, pharmaceuticals, biomedical engineering, clean tech, biotechnology, construction and electronics. Berlin is home to world-renowned universities, orchestras, museums, and entertaining venues, and is host to many sporting events. Its Zoological Garden is the furthestmost visited zoo in Europe. With the world's oldest important movie studio complex, Berlin is a progressively popular location for international film productions. The city is well recognized for its festivals, diverse architecture, nightlife, contemporary arts and a very high quality of living. Since the 2000s Berlin has perceived the emergence of a cosmopolitan entrepreneurial scene. As per of 2014, Berlin had 878 schools, teaching 340,658 children in 13,727 classes and 56,787 trainees in businesses and elsewhere. Berlin is a continental hub for air and rail traffic and encompasses an extremely advanced public transportation network.
