# Venue & Hospitality

Helsinki, often called the “white city of the north” is the sustainable capital of Finland. The city is known for its vibrant seaside, beautiful islands and great green urban areas. A wonderful and unique beat of its dynamic food, design, architecture makes Helsinki different from others. One of the interesting facts about Finland is: The Finns are among the biggest coffee drinkers in the world, and have been for decades. The thrill and excitement of witnessing the Aurora Borealis is a lifetime experience and Finland is one of the best places to spot the Northern Lights.

The quality of health service in Finland is considered to be good; according to European Commission in 2000. Finland is considered to be the top five countries in satisfaction: 88% of Finnish respondents were satisfied, compared with the EU which has average of 41 %.
