Program Announcement

Accommodation

A large number of rooms have been reserved. Discounted room rates for Pediatrics Summit 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Neonatology, Pediatrics & Neonatology.

About Osaka

Osaka is a designated city in the Kansai region of Japan. Osaka is Japan's second largest metropolitan area after Tokyo. It has a population of over 19 million inhabitants. The city's west side is open to Osaka Bay, and is otherwise completely surrounded by more than ten satellite cities, all of them in Osaka Prefecture, with one exception: the city of Amagasaki, belonging to Hyōgo Prefecture, in the northwest. Osaka is the food capital of the world. Osaka is located in the humid subtropical climate zone with four distinct seasons. Its winters are generally mild, with January being the coldest month having an average high of 9.3°C (49°F). The city rarely sees snowfall during the winter. Spring in Osaka starts off mild, but ends up being hot and humid.

Greater Osaka has an extensive network of railway lines, comparable to that of Greater Tokyo. Osaka is served by two airports outside of the city, Kansai International Airport which handles primarily international passenger flights and Osaka International Airport which handles mostly domestic services and some international cargo flights.
