# Invitation...

## Dear Colleagues,

Conference Series LLC welcomes you to attend **10<sup>th</sup> World Congress on Precision and Personalized Medicine** held during **October 05-06, 2018 Osaka, Japan**, with the theme "**Current Trends and Future Directions of Personalized Medicine**". This international meet (Personalized Medicine Congress 2018) anticipates hundreds of delegates including keynote speakers, Oral presentations by renowned speakers and poster presentations by students besides delegates around the world. This conference perhaps a giant event that creates an ideal platform to share expertise addressing current advancements involved in Precision and Personalized Medicine. It will be a wonderful opportunity for all the delegates as it provides an international networking opportunity to collaborate with the world class Precision and Personalized Medicine.

## Personalized Medicine Congress 2018

- Opportunity to attend the presentations delivered by eminent scientists and business professionals from all over the world.
- Selected contributions will be published in following reputed high impact factor Journals.
  - ☞ Advances in Molecular Diagnostics
  - ☞ Translational Medicine
  - ☞ Journal of Pharmacogenomics & Pharmacoproteomics
  - ☞ Journal of Molecular and Genetic Medicine

# Conference Sessions:

All honorable authors, researchers, scientists and students are encouraged to contribute and help the shape of the conference through submissions of their posters & research abstracts. Also, high quality research contributions describing original and unpublished of conceptual, constructive, experimental or theoretical work in all areas of Precision and Personalized Medicine are warmly invited for presentations at the conference. The conference memorial contributions of abstracts and posters that address themes & future aspects of the conference related sessions.

- Precision Medicine therapy
- Precision Medicine and Novel Technology
- Future of personalized medicine
- Individualized Treatment through Personalized Medicine
- Precision Pathology
- Predictive Biomarkers
- Precision Medicine: Oncology
- Data science to advance precision medicine
- Preventive Medicines
- Cardiology and vascular medicine
- Precision Immunotherapy
- Pharmacogenomics & Personalized Medicine
- Approaches to Stem Cells and Cell
- Bio specimens as building blocks for Precision Medicine
- Personalized Modeling of Precision Health
- Personalized Health Care Delivery
- Treatment of Genetic Disorders
- Personalized Vaccinology
- Market Strategies & Challenges in Personalized Medicine
- Metabolomics in precision medicine
- Precision Medicine: Genomics, Data analysis and Big Data Management
- Precision Medicine and Diagnostics Development
- Drug Discovery and Development

## **Speaker Slots Available**

NOTE: Program Schedule is subject to change with final allotment of the speaker slots

# Program at Glance

## Day-01 October 05 2018

Time	Session
08:30-09:30	Registrations
09:30-11:00	Keynote Forum
	Group Photo
11:00-11:15	Network & Refreshments Break*
11:15-13:00	Precision Medicine   Precision Medicine and Novel Technology   Future of personalized medicine
13:00-13:45	Lunch Break**
13:45-16:00	Individualized Treatment through Personalized Medicine   Precision Pathology   Predictive Biomarkers
16:00-16:15	Network & Refreshments Break*
16:15-18:00	Precision Medicine: Oncology   Data science to advance precision medicine   Preventive Medicines

Day Concludes

## Day-02 October 06 2018

Time	Session
08:30-09:30	Registrations
09:30-10:30	Keynote Forum
10:30-11:30	Cardiology and vascular medicine   Pharmacogenomics & Personalized Medicine
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Approaches to Stem Cells and Cell therapy   Bio specimens as building blocks for Precision Medicine
13:00-13:45	Lunch Break**
13:45-15:00	Personalized Modeling of Precision Health   Personalized Health Care Delivery
15:00-15:15	Network & Refreshments Break*
15:15-16:30	Treatment of Genetic Disorders   Personalized Vaccinology   Market Strategies & Challenges in Personalized Medicine
16:30-18:00	Poster Presentations

Day Concludes

Award Ceremony

Confetrece Concludes

# *City Attractions*

# Previous Speakers

# Venue

Osaka is the second largest metropolitan area in Japan and serves a major economic hub. Historically a merchant city, Osaka has also been known as the “Nation’s Kitchen”. With a population of 2.5 million, Osaka is Japan’s third largest and second most important city. It has been the economic powerhouse of the Kansai region for many centuries. The city’s west side has the main port as well as a tourist destination with attractions such as Kyocera Dome, Universal Studios Japan, Osaka aquarium, Minami, Osaka castle, Umeda sky building and the Tempozan Harbour Village. Osaka is known for its food, both in Japan and abroad. Author Michael Booth and food critic François Simon of Le Figaro have both suggested that Osaka is the food capital of the world. Osaka’s culinary prevalence is the result of a location that has provided access to high quality ingredients, a high population of merchants, and close proximity to the ocean and waterway trade. In recent years, Osaka has started to garner more attention from foreigners with the increased popularity of cooking and dining in popular culture. The National Museum of Art (NMAO) is a subterranean Japanese and international art museum, housing mainly collections from the post-war era and regularly welcoming temporary exhibitions. Osaka Science Museum is in a five storied building next to the National Museum of Art, with a planetarium and an OMNIMAX theatre. The Museum of Oriental Ceramics holds more than 2,000 pieces of ceramics, from China, Korea, Japan and Vietnam, featuring displays of some of their Korean celadon under natural light.
