Bangkok is the capital and most popular city of Thailand. It is among the world's top traveler goals, and has been named the world's most visited city reliably in a few universal rankings. The city is home to the nation's five most established colleges, Chulalongkorn, Thammasat, Kasetsart, Mahidol and Silpakorn, established somewhere in the range of 1917 and 1943. The city has since proceeded with its predominance, particularly in advanced education; most of the nation's colleges, both open and private, are situated in Bangkok or the Metropolitan Region.

It is a member from a few worldwide associations and provincial regional government systems, including the Asian Network of Major Cities 21, the Japan-drove Asian-Pacific City Summit, the C40 Cities Climate Leadership Group, the ESCAP-supported Regional Network of Local Authorities for Management of Human Settlements in Asia and Pacific (CITYNET), Japan's Council of Local Authorities for International Relations, the World Association of the Major Metropolises and Local Governments for Sustainability, among others.
