Program Announcement

Venue
Singapore

Important Dates
Abstract submission opens: November 19, 2018
Registration opens: November 19, 2018
Early bird registration: December 24, 2018
On spot registration: September 11, 2019

Accommodation
A large number of rooms have been reserved. Discounted room rates for Pharmacology Congress 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship
An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Dermatology and Pharmacology and Toxicology.

About Singapore
Singapore officially the Republic of Singapore, is a sovereign city-state and island country in Southeast Asia. It lies off the southern tip of the Malay Peninsula and is 137 kilometres (85 mi) north of the equator. Singapore is separated from Peninsular Malaysia by the Straits of Johor to the north and from Indonesia’s Riau Islands by the Singapore Strait to the south. The country is highly urbanized, and little of the original vegetation remains. Singapore’s progress over the past three decades has been remarkable, yet the island has not been overwhelmed by development. Visitors will discover a wealth of historical treasures from the past, in the beauty of older buildings, values and traditions that have survived in the face of profound social and geographical change.

Singapore is the most wired country in the region. It can be considered as a suitable medium for the relocation of valuable knowledge about research and novel advancements worldwide. The conferences taking part here would promote a variety of scientific ideas among contenders belonging to diverse areas of science and technology. Singapore has a tropical rainforest climate with no distinctive seasons, uniform temperature, pressure, high humidity and abundant rainfall. Sentosa Island, Singapore Flyer, Universal Studios, Night Safari Singapore, Singapore Botanic Gardens, Jurong Bird Park, Singapore Zoo, Sri Mariamman Temple, Pulau Hantu famous for its rich coral reefs and Peranakan Museum are some of the points of interest in Singapore. A splendid location, life expectancy, quality of life, personal safety and housing that is unsurpassed for its livability makes Singapore a city to visit and remember.
