# City Attractions

# Venue

Japan is an island nation in East Asia. Located in the Pacific Ocean, it lies off the eastern coast of the Asian continent and stretches from the Sea of Okhotsk in the north to the East China Sea and the Philippine Sea in the south. Japan has the world's tenth-largest population, with over 126 million people. Honshu's Greater Tokyo Area, which includes the de facto capital of Tokyo and several surrounding prefectures, is the largest metropolitan area in the world, with over 30 million residents.

Tokyo is both the political and healthcare capital of Japan. The quality and range of medical services and facilities in Tokyo have contributed largely to the growing demand for medical tourism in the country. Tokyo is the biggest metropolitan area in the world and is the busiest hub in Japan. Tokyo would have the 8th-largest economy in the world. The city's pop culture manifests itself everywhere makes it a city unlike any other and offers a unique travel experience. If that along with the great food, luxury hotels and ancient shrines are not enough of a reason to visit Tokyo.
