*Zhi-Gong Wang, Southeast University, China*
- Title: **Efficacy of thoracic mobility exercise on cardiopulmonary parameters and quality of life of individuals with asthma: a preliminary study**  
*Timilehin Abraham OYEFESO, University of Lagos, Nigeria*
- Title: **Combined Aerobic and Resistance Exercise Training Cardio-Pulmonary Functions and Body Composition of Individuals with Bi-Ventricular Heart Failure**  
*Olufunke Adewumi Ajiboye, Lagos University Teaching Hospital, Nigeria*

# City Attractions

# Venue

Osaka is located in the humid subtropical climate zone with four distinct seasons. Its winters are generally mild, the flower fields offer a wide variety of flowers in the month of May however, the region is most famous for its lavender which attracts large numbers of visitors every summer, when the plants are in full bloom. Spring in Osaka starts off mild, but ends up being hot and humid. Greater Osaka has an extensive network of railway lines, comparable to that of Greater Tokyo. Osaka is served by two airports outside of the city, Kansai International Airport which handles primarily international passenger flights and Osaka International Airport which handles mostly domestic services and some international cargo flights.

Mount-Fuji: Mount Fuji's snowy peak through cherry blossom leaves. It is the highest mountain in Japan with a height of 3,776 meters (12,388 feet). The mountain with its volcano forms a symmetrical cone which has become a symbol for Japan.

Tokyo-Tower: "Man Made" is often the keyword used to describe the Japan of today as this brilliant civilization innovated their way to greatness.
