Scientific Program

Proceedings of

5th International Conference on

211

November 27-29, 2017 Dubai, UAE

Conference Series IIC

One Commerce Center-1201 Orange St. #600, Wilmington, Zip 19899, Delaware, USA General Number: 1-650-889-4686

Kemp House, 152 City Road, London EC1V 2NX, UK Toll Free: +0-800-014-8923

Toll Free: Japan: 81-345780247 | Singapore: 800-852-6126 / 65 8008526126 USA/Canada: 1-650-889-4686 Email: physicaltherapy@healthconferences.org physiotherapymeet@healthconferences.org

Salon A

conferenceseries.com 08:30-08:45 Opening Ceremony

	Keynote Forum
	Title: Disparity in utilization of healthcare services among African Americans and Caucasians with
08:45-09:25	diabetes in the United States
	Anand Shetty, University of St. Mary, USA
9:25 to 10:15	Title: Novel of extracorporeal shockwave therapy and high-power laser therapy in musculoskeletal pain conditions
9:25 10 10:15	Areerat Suputtitada, Chulalongkorn University, Thailand
10:15-10:55	Title: Elastic resistance exercises in physiotherapy
10:15-10:55	Dagmar Pavlu, Charles University, Czech Republic
	Networking & Refreshment Break 10:55-11:05 @ Foyer
Session Neurological P	ehabilitation Physiotherapy in Treatment & Care Womens Health & Palliative Care
	R Harihara Prakash, Sardar Patel University, India
	air: Areerat Suputtitada, Chulalongkorn University, Thailand
	Session Intraduction
11.05.11.00	Title: Therapy accompanying use of VR-glasses in hemiparetic children and adolescents
11:05-11:30	Jennifer Honing, Fresenius University of Applied Sciences, Germany
11:30-11:55	Title: Running as a lower limb injuries prevention
11:30-11:33	Albert Carrere, The Corridor Clinic, Spain
11:55-12:20	Title: Implementation of early rehabilitation programs for patients after traumatic brain injury in acute care
11.55-12.20	Lippert-Grüner M, Charles University, Czech Republic
	Title: Osteoarthritis of the anterior cruciate ligament and the medial tibial plateau: Public health considerations from a cadaveric model
12:20-12:45	Jessica Immonen, Rocky Mountain University of Health, USA
	Group Photo
	Lunch Break 12:45-13:30 @ Market Place Restaurant
	Workshop Session
	Title: L.A.F (Location, Analysis and Facilitation): A new approach in physiotherapy in the management
13:30-14:15	of mechanical dysfunctions
	Castellano Juan, La Coruna University, Spain
14:15-15:00	Title: The use of combined treatment procedures during cervical dystonia Martina Christine Steinboeck, Vivantes Humboldt Clinic, Germany
	Session
	Title: The stomatognathic system's role in postural and physical rehabilitation
15:00-15:25	Silverio Di Rocca, M.P.R International School, Switzerland
	Title: Metabolic reason for bone and joint pain: A clinical and radiology differential diagnosis perspective for
15:25:15:50	physiotherapists
	Harish S Krishna, Malabar Medical College, India
	Coffee Break 15:50-16:05 @ Foyer
16:05-16:30	Title: Educating patients and health care providers about how complete decongestive therapy (CDT) can help reduce the risk of developing severe lymphoedema
10:05-10:50	Erika Van Der Mescht, Lymphoedema Association of South Africa, South Africa
	Title: Aquatic physiotherapeutic intervention on the balance of healthy elderly
16:30-16:55	Maria de Lourdes Oliveira Vilela Garcia, International Halliwick Association, Brazil
16:55-17:20	Title: Multidisciplinary intervention for a child with hearing loss and vestibular concerns

Title: The occurrence Of Osteoarthritis among the cases presented at Habib Physiotherapy complex Peshawar

Mahboob ur Rahman, Pakistan Physiotherapy Association, Pakistan

Title: Gait parameters across three attentional loading conditions during timed up and go test: A comparative study 17:45-18:10 between age-matched healthy individuals and stroke survivors

Harsh Agarwal, Indian Association of Physiotherapist, India

Panel Discussions

	Day 2 November 28, 2017
	Salon A
	Keynote Forum
08:30-09:10	Title: Health and built environment: Promoting accessibility to the persons with disability
00:30=07:10	R Harihara Prakash, Sardar Patel University, India
09:10-09:50	Title: Effective way to stretch the hamstring muscle: Randomized clinical trial
	Faris Alshammari, The Hashemite University, Jordan
09:50-10:30	Title: Infantile postural asymmetry and physical therapy: A randomized controlled trial
	Michael Jung, Fresenius University of Applied Sciences, Germany
	Workshop Session Title: Body equilibrium device: Preventing the stomatognathic system from interfering with rehabilitation
10:30-11:10	Silverio Di Rocca, M.P.R International School, Switzerland
	Networking & Refreshment Break 11:10-11:25 @ Foyer
Session	
	by Science Physiotherapy Methods and Instrumentation Experimental Techniques in Physiotherapies
	Anand Shetty, University of St. Mary, USA
Session Co-ch	air: Michael Jung , Fresenius University of Applied Sciences, Germany Session Intraduction
	Title: Implementation of early rehabilitation programs for patients after traumatic brain injury in acute care
11:25-11:50	Micheal Tomamavo, Rehabilitation Institute Brandys nad Orlici, Czech Republic
	Title: Long-term outcome after ultrasound therapy for calcific tendinitis of the shoulder: Results of the 10 years'
11:50-12:15	follow-up of an RCT
	Gerold Ebenbichler, Medical University of Vienna, Austria
12:15-12:40	Title: The effectiveness of early physiotherapy intervention on infant's motor performance: Comparison between inpatient and outpatient settings
	Areej Al-Abdulrahman, National Guard Health Affairs, KSA
12:40-13:05	Title: Neuroplasticity and upper extremity motor recovery after stroke
12:40-13:03	Ibrahim Ali Almoghassil, Takamol Alelaj Medical Center, KSA
	Lunch Break 13:05-13:50 @ Market Place Restaurant
13:50-14:15	Title: Repetitive McKenzie spinal extension exercises on cardiovascular responses in class I obese subjects
	H Bala Jeya Perumal, Pioneer College of Physiotherapy, India Title: Effects of model of exercise on type-2 diabetes progression
14:15-14:40	Subtitle: Exercise is the new pill for the prevention and treatment of chronic diseases
	Castellano Juan, La Coruna University, Spain
14:40-15:05	Title: What is the role of physiotherapy in cancer recovery?
17.70-13.03	Dibyendu Roy, Corel Centre for Onco Rehab, India
15:05-15:30	Title: Management with cortico-subcortical neuronal bypass: A future approach
	Nandu Chhabria, CSR Therapeutics Private Clinic, India
15:30-15:55	Title: Motor imagery for gait and balance rehabilitation in post stroke hemiparesis
	Aparna Gupta, SGT University, India Networking & Refreshment Break 15:55-16:10 @ Foyer
	Title: Physical therapist wellbeing is improved by following ergonomically right posture and rightly designed set up
16:10-16:35	Monika Naresh, New World Physiotherapy and Rehab Centre, India
	Title: Muscle strength, range of motion and function changes following hip arthroscopy
16:35-17:00	Mohamed Abdulla Husain, Leeds Beckett University, UK

17.00-17.25	Title: Correlation between grip strength and finger length in geriatrics	
1/.00-1/.75		

17:00-17:25	line: Correlation between grip strengtn and tinger length in geriatrics
17:00-17:25	Ishita Sood, Sardar Bhagwan Singh Post Garaduate Institue of Biomedical Sciences and Research, India
	Poster Presentation 17:25-18:00
P1	Title: Effects of kinesio-tapping versus myofascial release in temporo-mandibular myofascial muscle dysfunction: A randomized clinical trial
	Uzma Mustakahmed Shaikh, Shree Govind Guru University, India
P2	Title: Perception of undergraduate physiotherapy students' regarding clinical educators' attributes towards clinical teaching
	Janki Lukhi, Kajal Maheshwari and Mahima Thakkar, K M Patel Institute of Physiotherapy, India
P3	Title: Smart shirt with textile strain sensors as experimental method for ballerina shoulder girdle motion control
гэ	Guna Semjonova, Riga Stradins University, Latvia
P4	Title: Effects of head motion on postural stability in participants with chronic motion sensitivity
F4	Abdulaziz Aoudh Albalwi, Tabuk University, KSA
P5	Title: The knowledge of ethical values in physical therapy practice amongst physical therapists
FJ	Dhara Patel, Charmi Brahmbhatt and Sanjana Chauhan, K M Patel Institute of Physiotherapy, India
D/	Title: An evaluation of the influence of physiotherapy treatment on stress experienced
P6	Tomasz Wójcik, Jan Kochanowski University, Poland
P7	Title: Reducing assistance force during robotic-assisted gait training improves motor function: A randomized controlled trial in patients with subacute stroke
	Jiho Park, Yonsei University, South Korea
P8	Title: Comparative effect of modified shrug exercises with and without abdominal muscle activation on scapular upward rotator EMG and thickness in subjects with scapular downward rotation syndrome
	Ji-Hyun Kim, Yonsei University, South Korea
P9	Title: The efficacy of chair-based aerobic exercise with resistance using thera-band in improving the cardiovascular endurance of post-stroke patients in cavity
	Charen C Rabe, Saint Dominic College of Asia, Philippines
P10	Title: Comparison of the foot muscle EMG and medial longitudinal arch angle during short foot exercises at different ankle position
	Hyeo-Bin Yoon, Yonsei University, Republic of Korea
P 11	Title: Cross-cultural adaptation, reliability, internal consistency and validation of the Arabic version of the International Knee Documentation Committee (IKDC) subjective knee form for Arabic people with ACLR
	Husam Almalki, University of Salford, UK
P12	Title: Reliability of lower limb biomechanical outcome measures among healthy subjects using a 3D motion analysis during five specific sports tasks: Single-leg squats, single-leg landings, running, cutting 135 and cutting 90
	Abdullah Alyami, University of Salford, UK
D12	Title: Negative pulsed controlled pressure mechanotherapy in skin grafts: A case report
P13	Manuel Garabal Miguel, Clinica Garabal, Spain
D14	Title: The repeatability of lower limb biomechanical variables during a sidestep 90 and 135 degree cutting tasks
P14	Ayman Alhammad, University of Salford, United Kingdom
	Panel Discussions

Panel Discussions

	Day 3 November 29, 2017	
	Salon A	
	Workshop Session	
08:30-09:10	Title: Clinical use of QEEG (functional brain mapping) in rehabilitation	
08:30-09:10	Mahindokht Rouhikia, Arya Clinic, UAE	
Session Yoga in Physica	al Therapy Manual & Manipulative Therapy Experimental Techniques in Physiotherapies	
Session Chair:	Silverio Di Rocca, M.P.R International School, Switzerland	
Session Co-ch	air: Mahboob Ur Rahman, Habib Physiotherapy Complex, Pakistan	
		Session Intraduction

Title: What are the factors influencing the community integration of patients following spinal cord injury: A 09:10-09:35 systematic review

Muhammad Kashif, Riphah International University, Pakistan

09:35-10:00	Title: The incidence and nature of work related musculoskeletal injuries amongst physiotherapists, in South Africa, Gauteng province
07.55-10.00	Nadia Latib, Sefako Magatho University, South Africa
	Title: Shock wave therapy effectiveness in treating patients with heel pain: A randomized control trial
10:00-10:25	Eman Matar, Ministry of Health, Bahrain
	Title: The effects of patellar taping on biomechanical variables in patellofemoral pain syndrome: A literature review
10:25-10:50	Seyedeh Hedieh Hosseini Makrani, Semnan University of Medical Sciences, Iran
	Networking & Refreshment Break 10:50-11:05 @ Foyer
11:05-11:30	Title: Assessment of conventional and non-conventional wheelchair propulsion using surface electromyography activity of shoulder muscles
	Tarek Atallah, Lebanese University, Lebanon
11:30-11:55	Title: Comparative study of dry needling vs. soft tissue mobilization with hot moist pack in reducing pain of myofascial pain syndrome
	Er D Petil Jr, Manila Central University, Philippines
11:55-12:20	Title: The effect of upper extremities massages on reaction time and anticipatory skill in male athletes
11.00-12.20	Mohammadreza Kasnavi, Shahid Beheshti University of Medical Sciences, Iran
12:20-12:45	Title: Proposing a needs-based rehabilitation program for patients with neurological conditions in Ibadan, Nigeria
	Olubukola A Olaleye, University of Ibadan, Nigeria
	Lunch Break 12:45-13:30 @ Market Place Restaurant
13:30-13:55	Title: Effects of virtual reality on balance and postural control in people with multiple sclerosis: A systematic review
13:30-13:55	Mahsa Seydi, University of Social Welfare and Rehabilitation Sciences, Iran
13:30-13:55 13:55-14:20	Mahsa Seydi, University of Social Welfare and Rehabilitation Sciences, Iran Title: The effect of tDCS on fatigue of multiple sclerosis patients: A systematic review of randomized controlled clinical trials
	Mahsa Seydi, University of Social Welfare and Rehabilitation Sciences, Iran Title: The effect of tDCS on fatigue of multiple sclerosis patients: A systematic review of randomized controlled clinical trials Atefe Ashrafi, University of Social Welfare and Rehabilitation Sciences, Iran
	Mahsa Seydi, University of Social Welfare and Rehabilitation Sciences, Iran Title: The effect of tDCS on fatigue of multiple sclerosis patients: A systematic review of randomized controlled clinical trials Atefe Ashrafi, University of Social Welfare and Rehabilitation Sciences, Iran Title: Physium System: Negative pulse controlled pressure mecanotherapy profound fascial mobilization (PFM): Methodology, studies and cases
13:55-14:20	Mahsa Seydi, University of Social Welfare and Rehabilitation Sciences, Iran Title: The effect of tDCS on fatigue of multiple sclerosis patients: A systematic review of randomized controlled clinical trials Atefe Ashrafi, University of Social Welfare and Rehabilitation Sciences, Iran Title: Physium System: Negative pulse controlled pressure mecanotherapy profound fascial mobilization (PFM): Methodology, studies and cases Manuel Garabal Miguel, Clinica Garabal, Spain
13:55-14:20 14:20-14:45	Mahsa Seydi, University of Social Welfare and Rehabilitation Sciences, Iran Title: The effect of tDCS on fatigue of multiple sclerosis patients: A systematic review of randomized controlled clinical trials Atefe Ashrafi, University of Social Welfare and Rehabilitation Sciences, Iran Title: Physium System: Negative pulse controlled pressure mecanotherapy profound fascial mobilization (PFM): Methodology, studies and cases Manuel Garabal Miguel, Clinica Garabal, Spain Title: Patient satisfaction of physical therapy services in West Egypt Health Institutes
13:55-14:20	Mahsa Seydi, University of Social Welfare and Rehabilitation Sciences, Iran Title: The effect of tDCS on fatigue of multiple sclerosis patients: A systematic review of randomized controlled clinical trials Atefe Ashrafi, University of Social Welfare and Rehabilitation Sciences, Iran Title: Physium System: Negative pulse controlled pressure mecanotherapy profound fascial mobilization (PFM): Methodology, studies and cases Manuel Garabal Miguel, Clinica Garabal, Spain Title: Patient satisfaction of physical therapy services in West Egypt Health Institutes Tayseer S Younes, Pharos University in Alexandria, Egypt
13:55-14:20 14:20-14:45	Mahsa Seydi, University of Social Welfare and Rehabilitation Sciences, Iran Title: The effect of tDCS on fatigue of multiple sclerosis patients: A systematic review of randomized controlled clinical trials Atefe Ashrafi, University of Social Welfare and Rehabilitation Sciences, Iran Title: Physium System: Negative pulse controlled pressure mecanotherapy profound fascial mobilization (PFM): Methodology, studies and cases Manuel Garabal Miguel, Clinica Garabal, Spain Title: Patient satisfaction of physical therapy services in West Egypt Health Institutes Tayseer S Younes, Pharos University in Alexandria, Egypt Title: The primary purpose of this study was to measure the prevalence of low back, shoulder and neck pain among students
13:55-14:20 14:20-14:45 14:45-15:10	Mahsa Seydi, University of Social Welfare and Rehabilitation Sciences, Iran Title: The effect of tDCS on fatigue of multiple sclerosis patients: A systematic review of randomized controlled clinical trials Atefe Ashrafi, University of Social Welfare and Rehabilitation Sciences, Iran Title: Physium System: Negative pulse controlled pressure mecanotherapy profound fascial mobilization (PFM): Methodology, studies and cases Manuel Garabal Miguel, Clinica Garabal, Spain Title: Patient satisfaction of physical therapy services in West Egypt Health Institutes Tayseer S Younes, Pharos University in Alexandria, Egypt Title: The primary purpose of this study was to measure the prevalence of low back, shoulder and neck pain among students Rabab Kompal, Royal Institute of Medical Sciences, Pakistan
13:55-14:20 14:20-14:45 14:45-15:10	Mahsa Seydi, University of Social Welfare and Rehabilitation Sciences, Iran Title: The effect of tDCS on fatigue of multiple sclerosis patients: A systematic review of randomized controlled clinical trials Atefe Ashrafi, University of Social Welfare and Rehabilitation Sciences, Iran Title: Physium System: Negative pulse controlled pressure mecanotherapy profound fascial mobilization (PFM): Methodology, studies and cases Manuel Garabal Miguel, Clinica Garabal, Spain Title: Patient satisfaction of physical therapy services in West Egypt Health Institutes Tayseer S Younes, Pharos University in Alexandria, Egypt Title: The primary purpose of this study was to measure the prevalence of low back, shoulder and neck pain among students Rabab Kompal, Royal Institute of Medical Sciences, Pakistan Video Presentation
13:55-14:20 14:20-14:45 14:45-15:10	Mahsa Seydi, University of Social Welfare and Rehabilitation Sciences, Iran Title: The effect of tDCS on fatigue of multiple sclerosis patients: A systematic review of randomized controlled clinical trials Atefe Ashrafi, University of Social Welfare and Rehabilitation Sciences, Iran Title: Physium System: Negative pulse controlled pressure mecanotherapy profound fascial mobilization (PFM): Methodology, studies and cases Manuel Garabal Miguel, Clinica Garabal, Spain Title: Patient satisfaction of physical therapy services in West Egypt Health Institutes Tayseer S Younes, Pharos University in Alexandria, Egypt Title: The primary purpose of this study was to measure the prevalence of low back, shoulder and neck pain among students Rabab Kompal, Royal Institute of Medical Sciences, Pakistan Video Presentation Title: Transcending clinic walls: Physical therapy transforms society through community engagement
13:55-14:20 14:20-14:45 14:45-15:10 15:10-15:35	Mahsa Seydi, University of Social Welfare and Rehabilitation Sciences, Iran Title: The effect of tDCS on fatigue of multiple sclerosis patients: A systematic review of randomized controlled clinical trials Atefe Ashrafi, University of Social Welfare and Rehabilitation Sciences, Iran Title: Physium System: Negative pulse controlled pressure mecanotherapy profound fascial mobilization (PFM): Methodology, studies and cases Manuel Garabal Miguel, Clinica Garabal, Spain Title: Patient satisfaction of physical therapy services in West Egypt Health Institutes Tayseer S Younes, Pharos University in Alexandria, Egypt Title: The primary purpose of this study was to measure the prevalence of low back, shoulder and neck pain among students Rabab Kompal, Royal Institute of Medical Sciences, Pakistan Video Presentation

Thanks giving & Closing Ceremony
