Dear Colleagues,

Conference Series llc LTD., is delighted to welcome you to Phuket, Thailand for the Prestigious 9th World Congress on Plant Genomics and Plant Science. Plant Genomics 2019 will focus on "Genome Based Breeding and Genome Evolution Technologies on Plant". We are confident that you will enjoy the Scientific Program of this upcoming Conference.

We look forward to see you at Phuket, Thailand.

With Regards,
Plant Genomics 2019

Operating Committee, Conference Series LLC Ltd. Conferences

Editorial Board Members of Supporting Journals:

Xiangyang Shi
Cornell University, USA

Chenggang Wang
University of Florida, USA

Guangming Zhong
University of Texas Health Science Center, USA

Fernando Villalta
Meharry Medical College, USA

Mark T Muller
University of Central Florida, USA

Yoshiro Ohara
Kanazawa Medical University, Japan

Giorgio Palu
University of Padova Medical School, Italy

Venue

Phuket, Thailand

Important Dates

Abstract submission opens: September 10, 2018

Registration opens: September 10, 2018

Early bird registration: December 25, 2018

On spot registration: May 08, 2019

Accommodation

A large number of rooms have been reserved. Discounted room rates for Plant Genomics 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Plant Genomics and Plant Science.

About Phuket

Phuket is one of the southern provinces of Thailand. It consists of the island of Phuket, the country's largest island. It lies off the west coast of Thailand in the Andaman Sea. It formerly derived its wealth from tin and rubber and now from tourism. Phuket Province has an area of 576 square kilometers. The island was on one of the major trading routes between India and China. The island is mostly mountainous with a mountain range in the west of the island from the north to the south. The three highest peaks of this reserve are the Khao Prathiu 384 meters, Khao Bang Pae 388 meters, and Khao Phara 422 meters. The most popular (and overcrowded) tourist area on Phuket is Patong Beach on the central west coast. The west coast has several sandy beaches. The east coast beaches are more often muddy. Near the southernmost point is Laem Phromthep, a popular viewpoint.
