Invitation

Dear Colleagues,

With the overwhelming success of previous plant science congress Conference Series llc ltd welcomes you to attend the 7th **World Congress on plant science** to be held from **August 14-15, 2019 Auckland, Newzealand**. Plant science aims to bring together leading academic scientists, researchers and research scholars share their experiences and research results about all aspects of Conference Series llc LTD invites all the participants from all over the world to attend “7th **Annual Congress on Plant Science**” during **August 14-15, 2019 in Auckland, NewZealand**. Plant Science Congress is the premier event that brings together a unique and international mix of experts, scientists, researchers, specialists and lookup students to exchange and share their experiences and research outcomes on all elements of Plant Science & Ecosystem. The theme of the conference is around, “**Exploring the future advancements in the field of Plant science and Molecular Biology**”. Presentations concentrate no longer solely specific to Plant Science however additionally crop and forestry research, Arabidopsis, biofuels, Plant Root and Tree Root System, Plant/Agriculture - Industrial By-products Entrepreneurs Investment B2B.

With Regards,

Plant Science Congress 2019

Operating Committee, Conference Series LLC LTD. Conferences

Editorial Board Members of Supporting Journals:

Program Announcement

Venue

Auckland, Newzealand

Important Dates

Abstract submission opens: 20th April, 2019

Registration opens: 24th April, 2019

Early bird registration: 30th April, 2019

Mid registration: 1st July 2019

on spot registration: 14th August 2019

Accommodation

A large number of rooms have been reserved. Discounted room rates for Plant Science Congress 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Plant Science and Molecular Biology Care.

About Auckland, Newzealand

Auckland, based around 2 large harbours..It is a major city in the north of New Zealand.Auckland has a population of about 16.1 lakh.Auckland, on New Zealand's North Island, is a multi-cultural hub of food and wine, music..reThe culture of New Zealand is essentially a Western culture.

The Auckland urban area (as defined by Statistics New Zealand) ranges to Waiwera in the north, Kumeu in the north-west, and Runciman in the south. Auckland lies between the Hauraki Gulf of the Pacific Ocean to the east, the low Hunua Ranges to the south-east, the Manukau Harbour to the south-west, and the Waitakere Ranges and smaller ranges to the west and north-west. The surrounding hills are covered in rainforest and the landscape is dotted with dozens of dormant volcanic cones. The central part of the urban area occupies a narrow isthmus between the Manukau Harbour on the Tasman Sea and the Waitematā Harbour on the Pacific Ocean. Auckland is one of the few cities in the world to have a harbour on each of two separate major bodies of water.
