4th International Conference on
**PLANT SCIENCE & PHYSIOLOGY**
March 25-26, 2019  Sydney, Australia

*Theme: Modern Exploration Technologies in Plant Researches*

- **12+** Interactive Sessions
- **5+** Keynote Lectures
- **50+** Plenary Lectures
- **5+** Workshops
- **20+** Exhibitors
- **B2B Meetings**

Dear Attendees,

We are glad to announce the 4th International Conference on Plant Science & Physiology to be held in Sydney, Australia on March 25-26, 2019 organized in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members. Plant Science & Physiology 2019 aims at sharing new ideas and technologies amongst the professionals, industrialists and students from research areas of Plant Science & Physiology. As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. 4th International Conference on Plant Science & Physiology amid March 25-26, 2019 Sydney, Australia. This consolidates incite keynote presentations, Oral talks, Poster presentations and Exhibitions.

Sincerely,

Plant Science & Physiology 2019
Organizing Committee

About Us

Our International Open Access Journals
- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

Salient Features
- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

Our International Scientific Conferences
- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

Salient Features
- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manuscripts in our Open Access Journals

Special Issues: All accepted abstracts will be published in respective Conference Series llc LTD Journals
Each abstract will be provided with digital Object Identifier by Crossref
Conference Series Ltd is overwhelmed to announce the commencement of 4th International Conference on Plant Science & Physiology to be held during March 25-26, 2019 in Sydney, Australia. The upcoming conference will be organized around the theme “Modern Exploration Technologies in Plant Researches”. The Plant Science & Physiology 2019 theme has broad interests, which address many aspects of Plant Biology, Plant Science, Plant Physiology, Plant Biotechnology, and Plant Pathology. Research in the theme includes looking at plant resistance to parasites and pathogens, studying molecular and physiological adaptations to biotic and abiotic stress, identifying signaling mechanisms in plant responses to disease and using RNA silencing as an antiviral mechanism. Metabolic engineering of plants for producing biodegradable plastics, healthier sugars, and biofuel production and plants grow in association with complex communities of organisms. Phytobiomes encompass all of the organisms and all aspects of the environment that influence or are influenced by plants.

**Plant Science & Physiology 2019 salient features**
- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

**How Conference Series Conferences differs from others?**
- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientist’s representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

**Goals**
- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through.
- Bringing together the world’s scientific experts to catalyze and advance scientific knowledge about Plant Science & Physiology, present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.
Objectives
After participating in this meeting, attendees should be able to
- Discuss emerging issues in Plant Science & Physiology
- Discuss and apply recent research findings related to Plant Science & Physiology
- Reflect on the place of critical distance in Plant Science & Physiology

Who should attend?
Academics including Professors, PhD Scholars, Students carrying out laboratory and field studies, Pharmaceutical Industrial Giants, Toxicology Societies and the people Associated, Nobel laureates in Health Care and Medicine, Pharmacists, Pharmacologists, Toxicology Professionals, Genetic Professionals, Pathology Professionals, Forensic Professionals, Pharmaceutical companies, Clinical Laboratories and Technicians, Bioinformatics Professionals, Research Institutes and members, Supply Chain companies, Manufacturing Companies, Training Institutes, Business Entrepreneurs.

About hosting organization
Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposia 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by CROSSREF.

Conference Highlights
- Plant Sciences and Plant Research
- Plant Genetics and Genomics
- Plant Nutrition and Soil Sciences
- Plant Ecology and Taxonomy
- Plant Biology
- Plant Diseases and Bryology
- Plant Physiology and Biochemistry
- Microbiology and Phycology
- Plant Tissue Culture
- Plant Molecular Biology
- Agronomy and Agricultural Research
- Plant Biochemistry
- Plant Anatomy and Morphology
- Plant and Environment
- Plant Hormones
- Plant Pathology and Mycology
- Plant Biotechnology
- Plant Metabolic Engineering

City Attractions

Plant Science & Physiology

http://plantphysiology.conferenceseries.com/
Australia - Apart from being a great place to get a first-rate education, Australia is also a fantastic place to live. It provides a welcoming and multicultural society with a population that originates from around 200 countries. Australian people have a reputation for being amongst the friendliest in the world, and Australian cities are safe and clean, with low crime rates. The lifestyle and quality of living in Australia is among the best in the world. Several of Australia's capital cities regularly rank among the world's 'most livable' cities.

Sydney has a reputation for being beautiful but shallow, but like the pretty girl in high school, she is often misunderstood and falsely labeled a show pony. Look a little closer and you’ll find a city with a long and complex history, and one that's about so much more than being ridiculously good looking.

The Harbor City also abounds with sophisticated spots to eat that showcase the quality and abundance of local produce. Hole-in-the-wall bars are multiplying like rabbits due to a recent relaxation in the state's licensing laws, while golden sandy beaches yield to the lapping water of the Tasman Sea. Fun and often free festivals are on throughout the year, and celebrate Australia's rich cultural diversity.

Do take a trip out of the city. Two hours’ drive north you’ll find the Hunter Valley, Australia's oldest wine region, which is continuously producing new and innovative winemakers. To the west lie The Blue Mountains, home to dramatic scenery, bushwalks, caves and enticing spots to eat and shop.
