## About City

Portland is the largest city in the U.S. state of Oregon. Portland is located in the Willamette Valley region of the Pacific Northwest, between the Pacific Ocean and the Cascade Mountains, and its climate is marked by warm, dry summers as well as damp, cool-to-chilly winter days. This climate is ideal for growing roses. For more than a century, Portland has been known as the “City of Roses”. The city is also known for its abundant outdoor activities, liberal political values, and coffee and beer enthusiasm. Portland is home to the most total breweries and independent microbreweries of any city in the world. The city operates with a commission based government guided by a mayor and four commissioners as well as Metro the only directly elected metropolitan planning

Organization in the United States. The city government is notable for its land-use planning and investment in public transportation. Portland is frequently recognized as one of the most environmentally conscious or “green” cities in the world because of its high walkability, large community of bicyclists, expansive network of public transportation options and 10,000+ acres of public parks.

### Venue:

Crowne Plaza

Portland Downtown

Downtown

Zip-97232

Oregon, USA
