Our Programme

Our programme aims to provide chemists, lab specialist, chemistry Professors, Doctors and research scholar, Eminent Researchers and students, Schools of medicine, Medicine Associates and Societies, Business Entrepreneurs, Vision analysis Lab Members ,chemical Industry, flexible electronics, Nanotechnologist and anyone professionally involved in study of Polymer and Nanotechnology with an opportunity to learn about the application of electronics, discuss interventional procedures, look at new and advanced discoveries. Flexible polymers and Nanotechnology application and their efficiency understand local realities and practical constraints in improving Polymer reactions and their application.

With individuals from around the globe concentrated on the fact Polymer Chemistry, this is the absolute best chance to achieve the biggest collection of members from the chemistry Background. Lead workshops, disseminate data, meet with present and potential clients, make a sprinkle with another product offering, and get name acknowledgment at this 3 days occasion. Widely acclaimed speakers, the latest strategies, and the most up to date overhauls in field of polymer are signs of Polymer Catalysis 2019
