Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the field of nursing research and evidence based practice.

About Tokyo

Tokyo, Japan's busy capital mixes the ultramodern and the traditional, from neon-lit skyscrapers to historic temples. The opulent Meiji Shinto Shrine is known for its towering gate and surrounding woods. The Imperial Palace sits amid large public gardens. The city's many museums offer exhibits ranging from classical art (in the Tokyo National Museum) to a reconstructed kabuki theater (in the EdoTokyo Museum).

Tokyo is a mega-metropolis of dizzying contradictions, both familiar and foreign. It has neon, skyscrapers, and salaryman crowds, packed trains, cuttingedge architecture and futuristic technology. But it also has ancient shrines, plant-covered wooden houses, cycling grannies, old-school sweet shops and village-like lanes. It is one of the planet's most densely populated cities (as any rush-hour train journey will demonstrate), with a hyperactive skyline that changes as regularly as the sun rises and sets. Yet it is also a city rooted in its traditions and in possession of a calm and efficient rhythm that belies its sprawling dimensions. And even though its home to a 13 million-plus population, trains run on time, there is no public litter and street crime is near non-existent. In short, it works. Another key enticement is the food – from sushi to soba, and everything in between. Tokyo is a nirvana for foodies, and has the world's highest volume of Michelin stars in a city. Shopping is another highlight – it's worth bringing an empty suitcase to fill with hard-to-resist gadgets, trendsetting garments and treasures from craft and design stores.
