Dear Colleagues,

*Conference Series LLC ltd welcomes you to attend the **International Conference Rare Diseases and Orphan Drugs** which is going to be held in Tokyo, Japan during November 25 & 26, 2020. We cordially invite all the participants who are interested in sharing their knowledge and research in the arena of Rare Diseases and Orphan Drugs .*

The Conference Rare Diseases 2020 revolves around the theme "Explore the Recent advancements in Rare Diseases & Orphan Drugs Research". This conference paves a very good platform for the Scientists, Deans, Professors, Manufacturers, Students and Academicians to exchange their ideas & updates on recent innovations associated with it.

*With Regards,
Rare Diseases 2020 Operating Committee
Conference Series Conferences*

Program Announcement

Accommodation

A large number of rooms have been reserved. Discounted room rates for Rare Diseases 2020 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by Public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Rare Diseases and Orphan Drugs

About Tokyo.

Tokyo is Japan's capital and the largest metropolitan area in the world. It is also one of Japan's 47 prefectures, consisting of 23 central city wards and multiple cities, towns, and villages west of the city center. The Izu and Ogasawara Islands are also part of Tokyo. Prior to 1868, Tokyo was known as Edo. A small castle town in the 16th century, Edo became Japan's political center in 1603 when Tokugawa Ieyasu established his feudal government there. A few decades later, Edo had grown into one of the world's most populous cities. With the Meiji Restoration of 1868, the emperor and capital moved from Kyoto to Edo, which was renamed Tokyo ("Eastern Capital"). World's highest Skywalk- the Tokyo Sky Tree is the tallest free-standing tower in the world, measuring 634m. The observation deck at 450m is the world's highest skywalk and offers panoramic views of the city. Tokyo is a fascinating city, where the latest trends and the oldest traditions meet. From ancient cherry-blossom festivals to the vibrant Harajuku neighborhood. Tokyo offers a seemingly unlimited choice of shopping, entertainment, culture, and dining to its visitors.
