Hong Kong

## Important Dates

Abstract submission opens: August 06, 2018  
Registration opens: August 03, 2018  
Early bird registration: April 21, 2019  
On spot registration: October 21, 2019

## Accommodation

A large number of rooms have been reserved. Discounted room rates for Rheumatology Congress 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

## Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Rheumatology.

## About Hong Kong

Hong Kong is located in Eastern Asia on the southeast coast of China. The official languages of Hong Kong are Chinese and English, and the currency is the Hong Kong dollar (HKD). Hong Kong continues to link its currency closely to the United States dollar (USD), maintaining an arrangement established in 1983. Hong Kong was a self-governing British colony from 1841 to mid-1997. Pursuant to the 1984 Sino-British Joint Declaration, Hong Kong became a Special Administrative Region (SAR) of the People's Republic of China on 1 July 1997. According to the Basic Law (Hong Kong's constitutional document), Hong Kong is guaranteed a high degree of autonomy in all matters except foreign and defence affairs for the next 50 years after the sovereignty transfer under the 'one country, two systems' policy. The Basic Law ensures that Hong Kong's legal system is separate from the one of China and remains within the common law system. The Hong Kong SAR Government is committed to upholding the rule of law, which has played a vital role in Hong Kong's success in the past. Hong Kong is one of the freest economies in the world. The Hong Kong SAR Government has long been endorsing the 'market driven with minimal government interference' policy in order to create a business-friendly environment in Hong Kong. Hong Kong became a member of the Asia Pacific Economic Cooperation in 1991 and a member of the World Trade Organization (WTO) on 1 January 1995. Over the past few decades, Hong Kong has been transformed from a labour intensive manufacturing-based economy towards a high value-added and knowledge-based economy, with focus on international trade, financial services, tourism, etc. Since the handover in 1997, Hong Kong has become increasingly integrated with China through trade, tourism, and financial links. Hong Kong has also established itself as the premier stock market for Chinese firms seeking to list abroad and a prime renminbi (CNY) offshore centre.
