3rd International Conference on
SPINE AND SPINAL DISORDERS

June 11 - June 13, 2018
London, UK

15+ Interactive Sessions
10+ Keynote Lectures
50+ Plenary Lectures
3+ Workshops

B2B Meetings

http://spine.conferenceseries.com/
We Invite you to Join us!

Welcome to most exciting and fascinating London, UK! Within this splendid setting, we plan to deliver a conference that will exceed your expectations. During this year's 3rd International Conference on Spine and Spinal Disorders, we hope that you will seize the opportunity to rekindle ongoing connections and spark new ones with your colleagues from around the globe.

The Conference theme is "Divulging advances for better comprehension of Spine Health"

Our Conference Series LLC organizes 1000+ Conferences Every Year across USA, Europe & Asia with support from 1000 more scientific societies and Publishes 700+ Open access journals which contain over 100000 eminent personalities, reputed scientists and editorial board members.

Spine Congress 2018 will offer ample opportunities for all stakeholders working on Spine and Spinal disorders to expose their research work. Our conference aims to gather the Researchers, principal investigators, experts, Spine specialists and researchers working on Spine disorders from both academia and health care industry, Business Delegates, Scientists and students across the globe to provide an international forum for the dissemination of original research results, new ideas and practical development experiences.

In Spine Congress 2018, international symposiums, B2B meetings and International workshops will also be organized to discuss the specific topics in the field of Spine research and Spinal Disorders.

This year’s Conference program, coupled with the Business Opportunity Exchange, is an event you can't afford to miss!

Conference Highlights:

- Spine and Spinal cord
- Spinal Cord Injury
- Spina Bifida
- Spine Fractures
- Spine Infections
- Myelopathy
- Spine Surgery
- Spine therapy
- Spinal cord Tumors
- Cervical Spondylosis
- Spine and Spinal Stenosis
- Myelitis
- Spine and Backpain
- Spine Fusion
- Lumbar Spine
- Spinal Deformity
Previous speakers

Pierre-Michel Dugailly
Université Libre de Bruxelles, Belgium

Arvind G Kulkarni
Bombay Hospital, India

Marco Bortoluzzi
Civil Hospital, Italy

Jaime Gasco-Tamarit
Valley Care Clinics Neuro-Spine Institute, USA

Hirosi Nakagawa
Kushiro Kojinkai Memorial Hospital Spine Center, Japan

Alberto Zerbi
IRCCS Istituto Ortopedico Galeazzi, Italy

Miguel JA Láinez
Catholic University of Valencia, Spain

Edward Taub
University of Alabama and CI Therapy Research Group and Taub Training Clinic, UK

Mario Carvi y Nievas
Kiniken Südostbayern AG, Germany

Vicente Vanaclocha-Vanaclocha
Hospital General Universitario de Valencia, Spain

Duccio Boscherini
Clinique de La Source, Switzerland

Alberto Rovetta
Politecnico di Milano, Italy

Elena Maredi
Rizzoli Orthopaedic Institute, Italy

Peter Moriarty
Galway University and Merlin Park Hospital, Ireland

Kemal Ahmed
CH-NDB, France

João Eduardo Daud Amadera
Spine Center HCor, Brazil

Satish Kalidindi
Manipal Hospitals, India

Rozilene Maria Cota Aroeira
Universidade Federal de Minas Gerais, Brazil

Inaki Arrotegui
Catholic University Hospital, Spain

Tourist Attractions
London is the capital city of England and the United Kingdom. It is the most populous city in the United Kingdom with a metropolitan area of over 13 million inhabitants. Standing on the River Thames, London has been a major settlement for two millennia. London has a diverse range of peoples and cultures, and more than 300 languages are spoken within Greater London. London is a leading global city, with strengths in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transport all contributing to its prominence. London became a Centre for the worldwide youth culture, exemplified by the Swinging London subculture associated with the King’s Road, Chelsea and Carnaby Street. London is the seat of the Government of the United Kingdom. The city is split by the River Thames into North and South, with an informal central London area in its interior. London has a temperate oceanic climate, similar to much of southern Britain. The Monument in the City of London provides views of the surrounding area while commemorating the Great Fire of London, which originated nearby. With increasing industrialisation, London’s population grew rapidly throughout the 19th and early 20th centuries, and it was for some time in the late 19th and early 20th centuries the most populous city in the world until overtaken by New York City in 1925. London is the most populous city and metropolitan area of the European Union and the second most populous in Europe.

No city on earth is more alive than London!!!
