**Day Concludes**

Award Ceremony

Conference Concludes
## Major Scientific Sessions

- Stem cell therapies for spine
- Spine and Orthopedic spine Surgery
- Spine and Spinal Stenosis
- Non-operative Treatment for Spinal Disabilities
- Pathways of Spinal Pain
- Spinal Instrumentation
- Postoperative Rehabilitation
- Spine Radiology and Imaging
- Spinal Tumors and Inflammation
- Postoperative Complications
- Outcome Assessment in Spinal Surgery

## Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster.
- Judges will even evaluate the student’s enthusiasm towards their study, interest and knowledge in the area of their research.
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement.
- Apart from the judging time you may also be present at the poster to share your research with interested delegates.

## Young Researchers Forum

- Present your research through oral presentations.
- Learn about career development and the latest research tools and technologies in your field.
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research.
- Develop a foundation for collaboration among young researchers.
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe.
- Interact and share ideas with both peers and mentors.

Best Tourist Destinations in Osaka
About Osaka

Japan is a cultural Galápagos, where a unique civilization blossomed, and today thrives in contrasts of traditional and modern spirits of strong, warm and incredibly welcoming leading the nation in scientific research, particularly in technology, machinery and biomedical research. Japan leads the world in robotics production and use. Spine Conferences Japan, going to be held this time in Osaka which is situated in subtropical atmosphere zone with four particular seasons.

Osaka is the second largest metropolitan area in Japan and serves a major economic hub. Historically a merchant city, Osaka has also been known as the “Nation's Kitchen”. With a population of 2.5 million, Osaka is Japan’s third largest and second most important city. It has been the economic powerhouse of the Kansai region for many centuries which you may enjoy by attending Top Spine Conferences.

The city’s west side has the main port as well as a tourist destination with attractions such as Kyocera Dome, Universal Studios Japan, Osaka aquarium, Minami, Osaka castle, Umeda sky building and the TempozanHarbour Village. Osaka is known for its food, both in Japan and abroad. Author Michael Booth and food critic François Simon of Le Figaro have both suggested that Osaka is the food capital of the world. Osaka’s culinary prevalence is the result of a location that has provided access to high quality ingredients, a high population of merchants, and close proximity to the ocean and waterway trade. In recent years, Osaka has started to garner more attention from foreigners with the increased popularity of cooking and dining in popular culture.
