Scientific Program

2nd International Conference on

Neurological Disorders and Stroke

April 28-30, 2016 Dubai, UAE

Conference Series Ilc LTD

47 Churchfield Road, London, W3 6AY
Ph: +1-888-843-8169, Fax: +1-650-618-1417, Toll free: +1-800-216-6499
Email: stroke@neuroconferences.com; strokeconference@conferenceseries.net

Grand Hall A

conferenceseries.com 09:30-10:00

Opening Ceremony

| | Keynote Forum |
|----------------------------|--|
| 10:00-10:40 | Decompressive Craniectomy for Malignant Middle Cerebral Artery Infarction: Preliminary Experience of a Tertiary Care Center from Saudi Arabia and Current Recommendations Saleh Baeesa King Abdulaziz University, Saudi Arabia |
| | Networking & Refreshment Break @ 10:40-11:00 |
| 11:00-11:40 11:40-12:10 | Dehydration exacerbates cerebral microvascular responses to hyperthermia Mohamad Fayez Al Homsi, University of Sharjah, UAE Cardio embolic stroke: A review Shireen Qureshi Johns Hopkins Aramco Healthcare, Saudi Arabia |

Session on: Cerebrovascular Disorders and Stroke

| Session Chair: | Saleh Baeesa, King Abdulaziz University, Saudi Arabia |
|----------------|---|
| | Session Introduction |
| 12:10-12:40 | Outcome of Intracranial Arterial Stenting of Symptomatic Atherosclerotic Disease: A Single Center |
| | Experience from Saudi Arabia |
| | Saleh Baeesa, King Abdulaziz University, Saudi Arabia |
| 12:40-13:10 | HIV Infection as an Independent Risk Factor for Ischemic Stroke in a Portuguese Metropolitan Population |
| | Antonio Pais de Lacerda, Hospital de Santa Maria, Portugal |
| | Lunch Break 13:10-13:55 @ Restaurant 971 |
| 13:55-14:25 | Endovascular Management for Tandem Occlusions of Anterior Circulation: Systematic Analysis of 99 |
| | Patients from Literature |
| | Ibrahim Alnaami, King Khalid University, Saudi Arabia |
| 14:25-14:55 | Post Stroke Depression |
| | Wai Kwang Tang, The Chinese University of Hong Kong, Hong Kong |
| 14:55-15:25 | Using a ligand-directed thrombotic agent in an animal model of Arteriovenous Malformation (AVM) to |
| | induce vascular occlusion |
| | Hari Priya Bandi, Macquarie University, Australia |
| 15:25-15:55 | Effect of dietary ginger and turmeric rhizomes on ectonucleotidases, adenosine deaminase and |
| | acetylcholinesterase activities in synaptosomes from the cerebral cortex of hypertensive rats |
| | Ayodele Jacob Akinyeml, Afe Babalola University Ado-Ekiti, Nigeria |

Networking & Refreshment Break @ 15:55-16:15

Session on: Therapeutic Approaches for Neurological Disorders & Stroke

Session Chair: Mohammed Mansi, University of Minnesota, USA

Session Co-Chair: Margherita Di Paola, LUMSA University, Italy

Session Introduction

- 16:15-16:45 The potency of Adeno-Associate Viruses in Direct Reprogramming of Astrocytes to Neurons in Stroke Models Across Three Experimental Species: Are We On The Right Path? Mohammed Mansi, University of Minnesota, USA
- Correction of structural changes in stroke Ischemic Tissues in the Central Nervous System (CNS) by trophinotropine "Cerebral"

Oleksandr Makarenko, Taras Shevchenko National University of Kyiv, Ukraine

| 17:45-18:15 | Functional magnetic resonance for assessing the effectiveness of surgical revascularization after stroke |
|--|---|
| | Sofya Markdorf , Institute International Tomography Center of the Russian Academy of Sciences, Russian Federation Panel Discussion |
| | Tallet Discossion |
| | Day 2 April 29, 2016 |
| | Grand Hall A |
| | Keynote Forum |
| 09:30-10:13 | 3 · · · · · · · · · · · · · · · · · · · |
| | Neuro-rehabilitation |
| | Yusuf Al-bustanji United Arab Emirate University, UAE |
| | |
| | Networking & Refreshment Break 10:15-10:30 @ Foyer Special Session on |
| 10:30-13:00 | Amyotrophe Lateralsklerose (ALS) |
| | Sponsored by BrünstlMedizin Neuronanomed Zentrum |
| 10:30-10:40 | Introductory session |
| 10 45 11 15 | Machtoub, Representative BrünstlMedizin, Germany |
| 10:45-11:15 | The clinical picture and concept of ALS in 2016 Albert Ludolph, RKU -Universitäts-Rehabilitationskliniken, Germany |
| 11:20-11:50 | Metabolic and cognitive patterns in Amyotrophic Lateral Sclerosis |
| | Marco Pagani, Institute of Cognitive Sciences and Technologies, Italy |
| 11:55-12:25 | Nanomedicine in the diagnosis and therapy of ALS |
| 12:30-13:00 | Lina Machtoub, Universitätsklinik für Radiologie, BrünstlMedizin, Germany Long term care of ALS patients |
| 12:30-13:00 | Ayman Al Boudi, Rashid Hospital, UAE |
| | Lunch Break 13:00-13:45 @ Restaurant 971 |
| Session on: Stro | oke Rehabilitation and Recovery |
| | · |
| | Yusuf Al-bustanji, United Arab Emirate University, UAE |
| | Yusuf Al-bustanji, United Arab Emirate University, UAE iir: Antonio Incisa della Rocchetta, Wellington Hospital, UK |
| | Yusuf Al-bustanji, United Arab Emirate University, UAE |
| Session Co-Cho | Yusuf Al-bustanji, United Arab Emirate University, UAE iir: Antonio Incisa della Rocchetta, Wellington Hospital, UK Session Introduction Prospective pilot randomised case controlled study on use of optokinetic chart stimulation for recovery of completely hemiplegic acute strokes |
| Session Co-Cho | Yusuf Al-bustanji, United Arab Emirate University, UAE iir: Antonio Incisa della Rocchetta, Wellington Hospital, UK Session Introduction Prospective pilot randomised case controlled study on use of optokinetic chart stimulation for recovery of completely hemiplegic acute strokes Benjamin Chitambira, East Kent Hospitals University NHS Foundation Trust, UK |
| Session Co-Cho | Yusuf Al-bustanji, United Arab Emirate University, UAE ir: Antonio Incisa della Rocchetta, Wellington Hospital, UK Session Introduction Prospective pilot randomised case controlled study on use of optokinetic chart stimulation for recovery of completely hemiplegic acute strokes Benjamin Chitambira, East Kent Hospitals University NHS Foundation Trust, UK Primary motor cortex and "true" motor recovery in chronic stroke |
| Session Co-Cho | Yusuf Al-bustanji, United Arab Emirate University, UAE iir: Antonio Incisa della Rocchetta, Wellington Hospital, UK Session Introduction Prospective pilot randomised case controlled study on use of optokinetic chart stimulation for recovery of completely hemiplegic acute strokes Benjamin Chitambira, East Kent Hospitals University NHS Foundation Trust, UK |
| 13:45-14:15 14:15:14:45 | Yusuf Al-bustanji, United Arab Emirate University, UAE dir: Antonio Incisa della Rocchetta, Wellington Hospital, UK Session Introduction Prospective pilot randomised case controlled study on use of optokinetic chart stimulation for recovery of completely hemiplegic acute strokes Benjamin Chitambira, East Kent Hospitals University NHS Foundation Trust, UK Primary motor cortex and "true" motor recovery in chronic stroke Ali Bani-Ahmed, University of Tabuk, Saudi Arabia Prolonged disorders of consciousness- the assessment and therapy pathway Antonio Incisa della Rocchetta, Wellington Hospital Acute Neurological Rehabilitation Unit, UK |
| 13:45-14:15 14:15:14:45 | Vusuf Al-bustanji, United Arab Emirate University, UAE vir: Antonio Incisa della Rocchetta, Wellington Hospital, UK Session Introduction Prospective pilot randomised case controlled study on use of optokinetic chart stimulation for recovery of completely hemiplegic acute strokes Benjamin Chitambira, East Kent Hospitals University NHS Foundation Trust, UK Primary motor cortex and "true" motor recovery in chronic stroke Ali Bani-Ahmed, University of Tabuk, Saudi Arabia Prolonged disorders of consciousness- the assessment and therapy pathway Antonio Incisa della Rocchetta, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Decompressive Hemicraniectomy for Malignant Middle Cerebral Artery Stroke: A Case Series of a Single |
| 13:45-14:15 14:15:14:45 14:45-15:15 | Vusuf Al-bustanji, United Arab Emirate University, UAE dir: Antonio Incisa della Rocchetta, Wellington Hospital, UK Session Introduction Prospective pilot randomised case controlled study on use of optokinetic chart stimulation for recovery of completely hemiplegic acute strokes Benjamin Chitambira, East Kent Hospitals University NHS Foundation Trust, UK Primary motor cortex and "true" motor recovery in chronic stroke Ali Bani-Ahmed, University of Tabuk, Saudi Arabia Prolonged disorders of consciousness- the assessment and therapy pathway Antonio Incisa della Rocchetta, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Decompressive Hemicraniectomy for Malignant Middle Cerebral Artery Stroke: A Case Series of a Single Center in Saudi Arabia |
| 13:45-14:15 14:15:14:45 14:45-15:15 | Tusuf Al-bustanji, United Arab Emirate University, UAE dir: Antonio Incisa della Rocchetta, Wellington Hospital, UK Session Introduction Prospective pilot randomised case controlled study on use of optokinetic chart stimulation for recovery of completely hemiplegic acute strokes Benjamin Chitambira, East Kent Hospitals University NHS Foundation Trust, UK Primary motor cortex and "true" motor recovery in chronic stroke Ali Bani-Ahmed, University of Tabuk, Saudi Arabia Prolonged disorders of consciousness- the assessment and therapy pathway Antonio Incisa della Rocchetta, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Decompressive Hemicraniectomy for Malignant Middle Cerebral Artery Stroke: A Case Series of a Single Center in Saudi Arabia Saleh Baeesa, King Abdulaziz University, Saudi Arabia |
| 13:45-14:15 14:15:14:45 14:45-15:15 15:15-15:45 | Session Introduction Prospective pilot randomised case controlled study on use of optokinetic chart stimulation for recovery of completely hemiplegic acute strokes Benjamin Chitambira, East Kent Hospitals University NHS Foundation Trust, UK Primary motor cortex and "true" motor recovery in chronic stroke Ali Bani-Ahmed, University of Tabuk, Saudi Arabia Prolonged disorders of consciousness- the assessment and therapy pathway Antonio Incisa della Rocchetta, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Decompressive Hemicraniectomy for Malignant Middle Cerebral Artery Stroke: A Case Series of a Single Center in Saudi Arabia Saleh Baeesa, King Abdulaziz University, Saudi Arabia Using advanced technology to maximise patient outcomes in Stroke Rehabilitation Tamsin Reed, Wellington Hospital Acute Neurological Rehabilitation Unit, UK |
| 13:45-14:15 14:15:14:45 14:45-15:15 15:15-15:45 | Session Introduction Prospective pilot randomised case controlled study on use of optokinetic chart stimulation for recovery of completely hemiplegic acute strokes Benjamin Chitambira, East Kent Hospitals University NHS Foundation Trust, UK Primary motor cortex and "true" motor recovery in chronic stroke Ali Bani-Ahmed, University of Tabuk, Saudi Arabia Prolonged disorders of consciousness- the assessment and therapy pathway Antonio Incisa della Rocchetta, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Decompressive Hemicraniectomy for Malignant Middle Cerebral Artery Stroke: A Case Series of a Single Center in Saudi Arabia Saleh Baeesa, King Abdulaziz University, Saudi Arabia Using advanced technology to maximise patient outcomes in Stroke Rehabilitation Tamsin Reed, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Networking & Refreshment Break 16:15-16:45 @ Foyer |
| 13:45-14:15 14:15:14:45 14:45-15:15 15:15-15:45 | Tusuf Al-bustanji, United Arab Emirate University, UAE iir: Antonio Incisa della Rocchetta, Wellington Hospital, UK Session Introduction Prospective pilot randomised case controlled study on use of optokinetic chart stimulation for recovery of completely hemiplegic acute strokes Benjamin Chitambira, East Kent Hospitals University NHS Foundation Trust, UK Primary motor cortex and "true" motor recovery in chronic stroke Ali Bani-Ahmed, University of Tabuk, Saudi Arabia Prolonged disorders of consciousness- the assessment and therapy pathway Antonio Incisa della Rocchetta, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Decompressive Hemicraniectomy for Malignant Middle Cerebral Artery Stroke: A Case Series of a Single Center in Saudi Arabia Saleh Baeesa, King Abdulaziz University, Saudi Arabia Using advanced technology to maximise patient outcomes in Stroke Rehabilitation Tamsin Reed, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Networking & Refreshment Break 16:15-16:45 @ Foyer Agrammatism in Arabic Broca's aphasia |
| 13:45-14:15 14:15:14:45 14:45-15:15 15:15-15:45 16:45-17:15 | Tusuf Al-bustanji, United Arab Emirate University, UAE iir: Antonio Incisa della Rocchetta, Wellington Hospital, UK Session Introduction Prospective pilot randomised case controlled study on use of optokinetic chart stimulation for recovery of completely hemiplegic acute strokes Benjamin Chitambira, East Kent Hospitals University NHS Foundation Trust, UK Primary motor cortex and "true" motor recovery in chronic stroke Ali Bani-Ahmed, University of Tabuk, Saudi Arabia Prolonged disorders of consciousness- the assessment and therapy pathway Antonio Incisa della Rocchetta, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Decompressive Hemicraniectomy for Malignant Middle Cerebral Artery Stroke: A Case Series of a Single Center in Saudi Arabia Saleh Baeesa, King Abdulaziz University, Saudi Arabia Using advanced technology to maximise patient outcomes in Stroke Rehabilitation Tamsin Reed, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Networking & Refreshment Break 16:15-16:45 @ Foyer Agrammatism in Arabic Broca's aphasia Yusuf Al-bustanji, United Arab Emirate University, UAE |
| 13:45-14:15 14:15:14:45 14:45-15:15 15:15-15:45 | Tusuf Al-bustanji, United Arab Emirate University, UAE iir: Antonio Incisa della Rocchetta, Wellington Hospital, UK Session Introduction Prospective pilot randomised case controlled study on use of optokinetic chart stimulation for recovery of completely hemiplegic acute strokes Benjamin Chitambira, East Kent Hospitals University NHS Foundation Trust, UK Primary motor cortex and "true" motor recovery in chronic stroke Ali Bani-Ahmed, University of Tabuk, Saudi Arabia Prolonged disorders of consciousness- the assessment and therapy pathway Antonio Incisa della Rocchetta, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Decompressive Hemicraniectomy for Malignant Middle Cerebral Artery Stroke: A Case Series of a Single Center in Saudi Arabia Saleh Baeesa, King Abdulaziz University, Saudi Arabia Using advanced technology to maximise patient outcomes in Stroke Rehabilitation Tamsin Reed, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Networking & Refreshment Break 16:15-16:45 @ Foyer Agrammatism in Arabic Broca's aphasia |
| 13:45-14:15 14:15:14:45 14:45-15:15 15:15-15:45 16:45-17:15 17:15-17:45 | Tusuf Al-bustanji, United Arab Emirate University, UAE iir: Antonio Incisa della Rocchetta, Wellington Hospital, UK Session Introduction Prospective pilot randomised case controlled study on use of optokinetic chart stimulation for recovery of completely hemiplegic acute strokes Benjamin Chitambira, East Kent Hospitals University NHS Foundation Trust, UK Primary motor cortex and "true" motor recovery in chronic stroke Ali Bani-Ahmed, University of Tabuk, Saudi Arabia Prolonged disorders of consciousness- the assessment and therapy pathway Antonio Incisa della Rocchetta, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Decompressive Hemicraniectomy for Malignant Middle Cerebral Artery Stroke: A Case Series of a Single Center in Saudi Arabia Saleh Baeesa, King Abdulaziz University, Saudi Arabia Using advanced technology to maximise patient outcomes in Stroke Rehabilitation Tamsin Reed, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Networking & Refreshment Break 16:15-16:45 @ Foyer Agrammatism in Arabic Broca's aphasia Yusuf Al-bustanji, United Arab Emirate University, UAE Using advanced technology to maximise patient outcomes in Stroke Rehabilitation from a Speech and language therapy perspective Kathryn Walker, Wellington Hospital Acute Neurological Rehabilitation Unit, UK |
| 13:45-14:15 14:15:14:45 14:45-15:15 15:15-15:45 16:45-17:15 | Tusuf Al-bustanji, United Arab Emirate University, UAE iir: Antonio Incisa della Rocchetta, Wellington Hospital, UK Session Introduction Prospective pilot randomised case controlled study on use of optokinetic chart stimulation for recovery of completely hemiplegic acute strokes Benjamin Chitambira, East Kent Hospitals University NHS Foundation Trust, UK Primary motor cortex and "true" motor recovery in chronic stroke Ali Bani-Ahmed, University of Tabuk, Saudi Arabia Prolonged disorders of consciousness- the assessment and therapy pathway Antonio Incisa della Rocchetta, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Decompressive Hemicraniectomy for Malignant Middle Cerebral Artery Stroke: A Case Series of a Single Center in Saudi Arabia Saleh Baeesa, King Abdulaziz University, Saudi Arabia Using advanced technology to maximise patient outcomes in Stroke Rehabilitation Tamsin Reed, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Networking & Refreshment Break 16:15-16:45 @ Foyer Agrammatism in Arabic Broca's aphasia Yusuf Al-bustanji, United Arab Emirate University, UAE Using advanced technology to maximise patient outcomes in Stroke Rehabilitation from a Speech and language therapy perspective Kathryn Walker, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Practices, Attitude and Perspectives on Decompressive HemicraniectomyA survey of Neurologists, |
| 13:45-14:15 14:15:14:45 14:45-15:15 15:15-15:45 16:45-17:15 17:15-17:45 | Tusuf Al-bustanji, United Arab Emirate University, UAE iir: Antonio Incisa della Rocchetta, Wellington Hospital, UK Session Introduction Prospective pilot randomised case controlled study on use of optokinetic chart stimulation for recovery of completely hemiplegic acute strokes Benjamin Chitambira, East Kent Hospitals University NHS Foundation Trust, UK Primary motor cortex and "true" motor recovery in chronic stroke Ali Bani-Ahmed, University of Tabuk, Saudi Arabia Prolonged disorders of consciousness- the assessment and therapy pathway Antonio Incisa della Rocchetta, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Decompressive Hemicraniectomy for Malignant Middle Cerebral Artery Stroke: A Case Series of a Single Center in Saudi Arabia Saleh Baeesa, King Abdulaziz University, Saudi Arabia Using advanced technology to maximise patient outcomes in Stroke Rehabilitation Tamsin Reed, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Networking & Refreshment Break 16:15-16:45 @ Foyer Agrammatism in Arabic Broca's aphasia Yusuf Al-bustanji, United Arab Emirate University, UAE Using advanced technology to maximise patient outcomes in Stroke Rehabilitation from a Speech and language therapy perspective Kathryn Walker, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Practices, Attitude and Perspectives on Decompressive Hemicraniectomy A survey of Neurologists, Neurosurgeons, and intensivists in Saudi and the Gulf |
| 13:45-14:15 14:15:14:45 14:45-15:15 15:15-15:45 16:45-17:15 17:15-17:45 | Tusuf Al-bustanji, United Arab Emirate University, UAE iir: Antonio Incisa della Rocchetta, Wellington Hospital, UK Session Introduction Prospective pilot randomised case controlled study on use of optokinetic chart stimulation for recovery of completely hemiplegic acute strokes Benjamin Chitambira, East Kent Hospitals University NHS Foundation Trust, UK Primary motor cortex and "true" motor recovery in chronic stroke Ali Bani-Ahmed, University of Tabuk, Saudi Arabia Prolonged disorders of consciousness- the assessment and therapy pathway Antonio Incisa della Rocchetta, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Decompressive Hemicraniectomy for Malignant Middle Cerebral Artery Stroke: A Case Series of a Single Center in Saudi Arabia Saleh Baeesa, King Abdulaziz University, Saudi Arabia Using advanced technology to maximise patient outcomes in Stroke Rehabilitation Tamsin Reed, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Networking & Refreshment Break 16:15-16:45 @ Foyer Agrammatism in Arabic Broca's aphasia Yusuf Al-bustanji, United Arab Emirate University, UAE Using advanced technology to maximise patient outcomes in Stroke Rehabilitation from a Speech and language therapy perspective Kathryn Walker, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Practices, Attitude and Perspectives on Decompressive HemicraniectomyA survey of Neurologists, |
| 13:45-14:15 14:15:14:45 14:45-15:15 15:15-15:45 16:45-17:15 17:15-17:45 | Tusuf Al-bustanji, United Arab Emirate University, UAE iir: Antonio Incisa della Rocchetta, Wellington Hospital, UK Session Introduction Prospective pilot randomised case controlled study on use of optokinetic chart stimulation for recovery of completely hemiplegic acute strokes Benjamin Chitambira, East Kent Hospitals University NHS Foundation Trust, UK Primary motor cortex and "true" motor recovery in chronic stroke Ali Bani-Ahmed, University of Tabuk, Saudi Arabia Prolonged disorders of consciousness- the assessment and therapy pathway Antonio Incisa della Rocchetta, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Decompressive Hemicraniectomy for Malignant Middle Cerebral Artery Stroke: A Case Series of a Single Center in Saudi Arabia Saleh Baeesa, King Abdulaziz University, Saudi Arabia Using advanced technology to maximise patient outcomes in Stroke Rehabilitation Tamsin Reed, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Networking & Refreshment Break 16:15-16:45 @ Foyer Agrammatism in Arabic Broca's aphasia Yusuf Al-bustanji, United Arab Emirate University, UAE Using advanced technology to maximise patient outcomes in Stroke Rehabilitation from a Speech and language therapy perspective Kathryn Walker, Wellington Hospital Acute Neurological Rehabilitation Unit, UK Practices, Attitude and Perspectives on Decompressive HemicraniectomyA survey of Neurologists, Neurosurgeons, and intensivists in Saudi and the Gulf Hosam Al-Jehani, Dammam University, Saudi Arabia |

17:15-17:45 The Superficial White Matter in Alzheimer's Disease

Margherita Di Paola, LUMSA University, Italy

- P2 Difference in weight distribution according to upright standing methods in hemiplegic patients
 Shi-Uk Lee, Seoul National University, Korea
 P3 The effectiveness of a self-management program in preventing complications, promoting self-efficacy
 and health status in people with spinal cord injury
 Hsiao-Yu Chen, National Taichung University of Science and Technology, Taiwan
 P4 Effect of Voluntary Running on Expression of Myokines in Brains of rats with Depression
 Magda A. Eldomiaty, Taibah University, Saudi Arabia
 P5 Patterns of hospital admissions of Stroke Patients to Ibsen SINA teaching Hospital, Sirte Libya
 Mohammed Sohail Abrar, Avalon University School of Medicine, The Netherlands Antilles
- P6 Rehabilitation after Traumatic Brain Injury My First step...

 Raquel Neves, Amana Healthcare Medical and Rehabilitation Hospital, UAE

Day 3 April 30, 2016

Grand Hall A

Keynote Forum

10:00-10:45 Multi-faceted stroke care

Hosam Al-Jehani

Dammam University, Saudi Arabia

Networking & Refreshment Break 10:45-11:10 @ Foyer

Corporate Sponsored Session; Amana Healthcare Group

Session Introduction

11:10-11:40 Patient and Family education in Stroke Rehabilitation Robert Dorsett, Amana Healthcare, UAE

11:40-12:10 Role of Rehabilitation in Multiple Sclerosis

Khalid Anwar, Amana Healthcare, UAE

12:10-12:30 Spasticity Management in a Sub-Acute and Chronic Care Setting in The UAE.

Ruairi Ó Broin, Amana Healthcare, UAE

Lunch Break 12:30-13:10 @ Restaurant 971

Workshop on

13:10-14:10 Completing the rehabilitation continuum in UAE: Enabling Community Care & Participation

Margeaux Blignaut & Patricia Smith, Amana Healthcare Medical and Rehabilitation Hospital - Al Ain, UAE

Session on: Neurological and degenerative disorders

Session on: Stroke and its Management

Session Chair: Margherita Di Paola, LUMSA University, Italy

14:10-14:40 Morphological changes of the peripheral nerve of rats after damaging and pharmacological corrections by neuropeptide agents

Oleksandr Makarenko, Taras Shevchenko National University of Kyiv, Ukraine

14:40-15:10 Endovascular and surgical treatment of neurovascular diseases, the cross roads

Hosam Al-Jehani, Dammam University, Saudi Arabia

Networking & Refreshment Break:15:10-15:25 @ Foyer

Workshop on

15:30-16:30 Advanced Homecare - Prothrombin Time (INR) Testing in a Home Setting

Michael Redmond, Amana Healthcare Medical and Rehabilitation Hospital - Al Ain, UAE

Closing Ceremony

PeerPoint Medical Education Institute designates the live format for this educational activity for AMA PRA Category 1 CreditsTM.

Physicians should only claim credit commensurate with the extent of their participation in the activity. AMA PRA
Category 1 Credits™

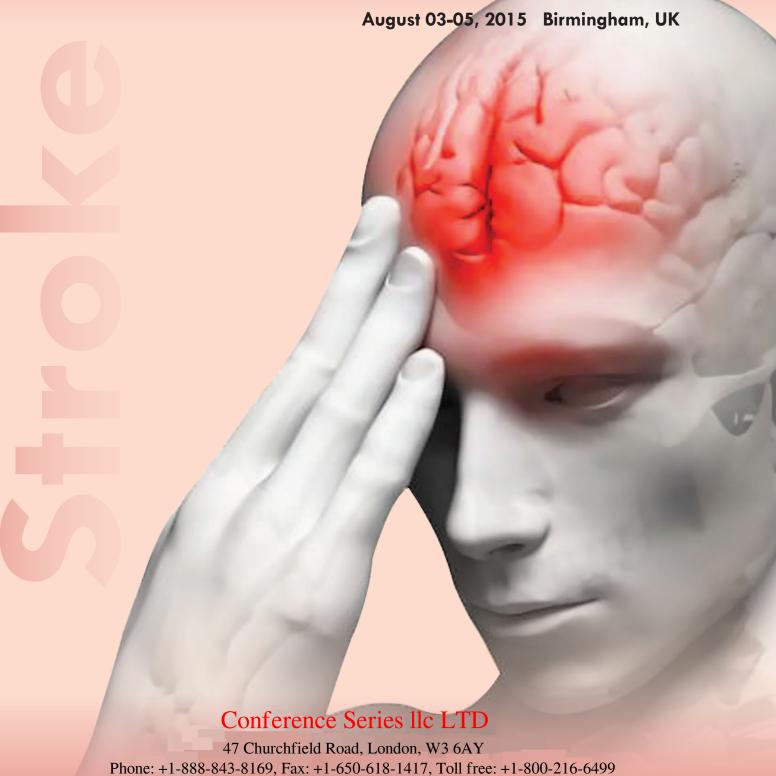

This activity has been approved for 21.5 AMA PRA Category 1 Credit $^{\text{TM}}$.

Scientific Program

Day 1

August 03, 2015

09:30-10:00

Registrations

Hall 1

conferenceseries. com 10:00-10:30 Opening Ceremony

Keynote Forum

10:30-11:10 Howard Prentice

Florida Atlantic University, USA

Networking & Refreshment Break 11:10-11:30

11:30-12:10 Xin Wang

Harvard Medical School, USA

Session on: Treatment fo<u>r Stroke</u>

Session Chair: Naomi Josman, University of Haifa, Israel Session Co-Chair: Xin Wang, Harvard Medical School, USA

Session Introduction

12:10-12:40 Cerebral vascular signal transduction: A novel strategy to treat Stroke

Saema Ansar, Lund University, Sweden

12:40-13:10 Are there differences between Acute and Home-dowelling Stroke clients on their executive functions skills?

Naomi Josman, University of Haifa, Israel

Disscussion and Group Photograph

Lunch Break 13:20-14:20

14:20-14:50 Neuroprotective targeting of mitochondrial and ER stress pathways in rodent models of stroke

Howard Prentice, Florida Atlantic University, USA

Use of the novel optokinetic chart stimulation based OKCSIB protocol for upper limb recovery in dense acute

14:50-15:20 strokes: Insights for future research from a case control series

Benjamin Chitambira, East Kent Hospitals University NHS Foundation Trust, UK

Identification of melatonin receptor 1A agonists as Neuroprotective agents in experimental models of Ischemic

15:20-15:50 injury

Xin Wang, Harvard Medical School, USA

Disorders of glial neocortex homeostasis under reproduction of acute cerebro-vascular pathology in rats

Oleksandr Makarenko, University of Kyiv, Ukraine

Networking & Refreshment Break 16:20-16:40

16:40-17:10 Nutrition in acute stroke

Andreas H. Leischker, Alexianer Krefeld GmbH, Germany

17:10-17:40 Stroke: A Neurosurgeon's Perspective

Vidyasagar Casikar, University of Sydney, Australia

Panel Discussion

Day 2 August 04, 2015

Hall 1

Keynote Forum

10:00-10:40 Stefan Golaszewski

Paracelsus Medical University Salzburg, Austria

10:40:11:10 Saema Ansar

Lund University, Sweden

Session on: Imaging and Diagnosis and Acute Stroke Management

Session Chair: Stefan Golaszewski, Paracelsus Medical University Salzburg, Austria

Session Co-Chair: Sikha Saha, University of Leeds, UK

Session Introduction

11:30-12:00 Use of stroke model in pathophysiology and early diagnosis

Sikha Saha, University of Leeds, UK

Evaluation of the role of ischemia modified albumin as a new biochemical marker for differentiation between

12:00-12:30 ischemic and hemorrhagic stroke

Nany Elgayar, Alexandria University, Egypt

Functional improvement in stroke patients in the subacute stage after treatment with whole-hand electrical

12:30-13:00 stimulation

Stefan Golaszewski, Paracelsus Medical University Salzburg, Austria

Lunch Break: 13:00-14:00

The 10,000 fold effect of retrograde Neurotransmission, A new concept for stroke revival: Use of Intracarotid

14:00-14:30 Sodium Nitropruside

Vinod Kumar, Neuro center, India

14:30-15:00 Role & clinical results of stem cell therapy in the management of stroke

Alok Sharma, Neuro Gen Brain & Spine Institute, India

15:00-15:45 Poster Presentations

Poster Judge: Howard Prentice, Florida Atlantic University, USA

Pharmacotherapeutic efficiency of Mitochondrin (2) and Cerebral under experimental acute hemorrhagic

P1 stroke: influence on glial homeostasis of cerebral cortex of rats

Oleksandr Makarenko, University of Kyiv, Ukraine

Program of cardiac prevention and rehabilitation: Useful and necessary tool in the treatment of stroke

Monica Rincon, Universidad de La Sabana, Bogota, Colombia

Networking & Refreshment Break 15:45-16:15

Young Researcher Forum

16:15-16:45 Stroke and Neurosurgery: new insights into two unrecognized entities

Bruno Lourenco Costa, University of Coimbra, Portugal

16:45-17:15 Cellular damage and changes in glutamate transporters in a murine model of ischemic stroke

Sabah Khan, University of Leeds, UK

Day 3 August 05, 2015

Hall 1

Session on: Epidemiology of Stroke and Stroke riskfactors and their Imapct

Session Chair: Ihor Huk, Medical University of Vienna, Austria

Session Co-Chair: Ying Li, Nanjing Medical University School of Public Health, China

Session Introduction

Neutrophil Gelatinase-associated Lipocalin (NGAL) - Is it relevant for the characterisation of a vulnerable

10:00-10:30 carotid plaque?

Ihor Huk, Medical University of Vienna, Austria

10:30-11:00 Features of the collateral circulation in the vertebrobasilar system in the setting of the cervical spinal injury

Mykola Salkov, Dnipropetrovsk Medical Academy, Ukraine

Networking & Refreshment Break 11:00-11:30

11:30-12:00 Effect of COC, hypertension, dyslipidemia and susceptibility on the risk of female stroke in China

Ying Li, Nanjing Medical University School of Public Health, China

12:00-12:30 Case fatality of stroke in IRAN: a systematic review and Meta-analysis

Yasaman Khalili, Iran University of Medical Sciences, Iran

Exposome, Aging, infections, Climate change and variability, and biomarkers of inflation, immune dysfunction,

12:30-13:00 endothelial dysfunction, oxidative stress, and thrombo-embolism for Stroke in Sub-Saharan Africa

B. Longo-Mbenza, Walter Sisulu University, South Africa

Panel Discussion

Lunch Break: 13:00-14:00

Closing Ceremony
