# Our Programme

Our programme aims to bridge the gap between basic and translation science, with an emphasis on large scale approaches and innovative technologies in the fields of Biochemistry and Biophysics, Bioinformatics, Molecular Biology and Microbiology, 3-D Structure Determination and many more.

We foster discussion and debate of the innovations by maximizing interactions collaborations and networking opportunities for researchers, scientists, doctors, students and delegates.

5+ Keynote Sessions

10+ Scientific Sessions

# Venue & Hospitality

Bali, the famous Island of the Gods, this is one of the world's most popular island termini and one which progressively wins travel awards. With its varied landscape of hills and mountains, rocky coastlines and sandy beaches, luxurious rice terraces and barren volcanic hillsides all providing an attractive background to its colorful, deeply mystical and unique culture, it makes a serious claim to be heaven on earth. It is famous for its highly developed arts, including traditional and modern dance, statue, painting, leather, metal working, and music. Bali is well-known for its colorful sunsets which arrive on signal at around 6pm every day of the year. Apart from the wealth of Bali magnetisms, from the spectacular beaches of Kuta, Nusa Dua and Seminyak, or Ubud's cultural heart and attractive adjoining rice fields, the northeastern coastal towns and Lombok Island are hidden gems till discovery.

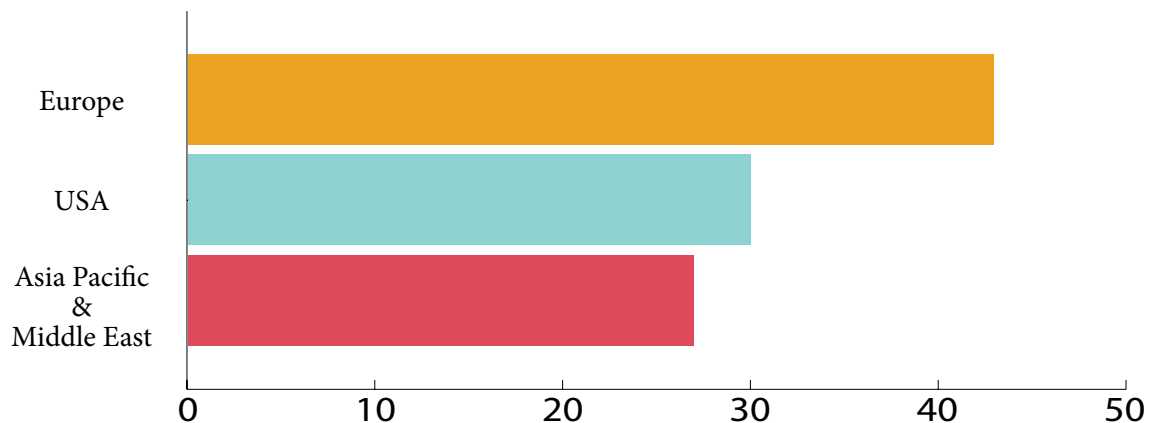

# our DELEGATE is your CLIENT

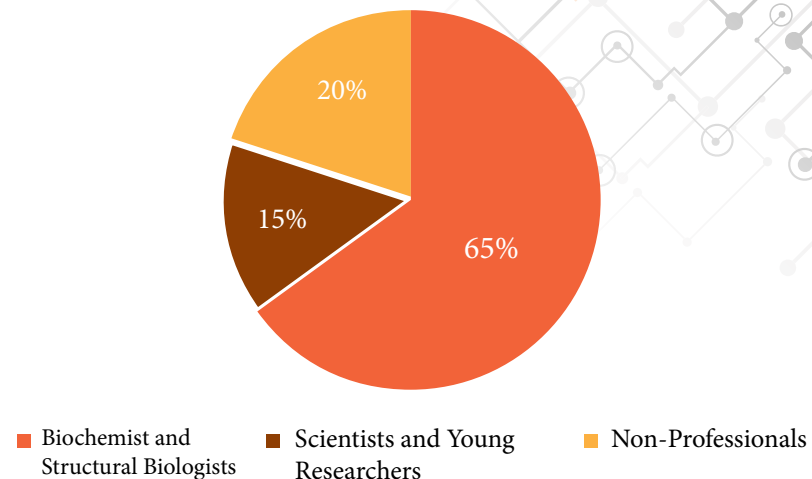

Exhibitors and sponsors have the opportunity for face-to-face networking with leading scientists and clinicians, increase brand awareness, and develop collaborations with an international audience.

In 2018-2019, the top ten countries represented by our delegates were: United States, United Kingdom, Germany, Netherlands, Belgium, Sweden, Canada, France, Switzerland, Japan, Spain and UAE
