

DEAR PROSPECTIVE SPONSOR/EXHIBITOR

GREETINGS FROM TOXICOLOGY 2020!

We would like to invite you to become a sponsor at the "CPD accredited 2nd World Congress on Toxicology and Applied Pharmacology" to be held on December 03-04, 2020 at Webinar.

Toxicology 2020 for your organisation to connect with up to 250 leading health care professionals who work in a variety of academics, research, industry, government and private sectors.

The Organising committee is diligently working on bringing most knowledgeable researchers from all over the world, as well as leaders from the industry to explore the recent happenings in Toxicology and Applied Pharmacology through energising and informative program speakers, and facilitating networking and business opportunities for sponsors through an interactive exhibition and a dynamic program on social events.

This high profile event would be a great chance to present your company among the most representative group of people so don't miss your opportunity to enhance your brand and demonstrate your leadership at Toxicology and Applied Pharmacology

Sponsors and Exhibitors will receive acknowledgement prior to, during and after the conference through conference materials and the website, and enjoy the significant contact with the exhibition and social events.

We offer a wide range of opportunities to suit your needs. We encourage you to review the enclosed details and respond quickly as we expect to sell out.

We look forward to your participation in this premier event and welcoming you to Webinar in December 2020.

Sincerely

Organising Committee.

SCOPE AND TOPICS

The scope of the conference covers all the niche research arenas in Toxicology and Applied Pharmacology happening around the world. The latest achievements of Toxicology and Applied Pharmacology developments will be presented and thoroughly discussed through a series of Key Notes, Plenaries, Workshops, Symposiums and Poster sessions. A broad spectrum of research and innovation activities will range from basic research to application-oriented multidisciplinary tracks and sub tracks will be addressed at the Toxicology 2020.
