Editorial Board Members of Supporting Journals:

Lynn C. Yeoman
Baylor College of Medicine, USA

Thomas P. Davis
University of Arizona, USA

Evandro Fei Fang
National Institute of Health, USA

Hari Krishen Bhat
University of Missouri Kansas City, USA

Rajat Sethi
Texas A&M Health Science Center, USA

Asok Dasmahapatra
University of Mississippi, USA

David R Wallace
Oklahoma State University Center for Health Sciences, USA

Pierre Brochu
University of Montreal, Canada

Zia Shariat Madar
University of Mississippi, USA

Dale Johnson
Emiliem, Inc. and Elara Bioscience Inc, USA

Rais A Ansari
Nova Southeastern University, USA

John Seth Markowitz
University of Mississippi, USA

Kazim Husain
Ponce School of Medicine, USA

James T Pokines
Boston University, USA

Karl A Larsen
University of Illinois, USA

Mariano Cingolani
University of Macerata, Italy

About Singapore

Singapore, officially the Republic of Singapore, is a sovereign city-state and island country in Southeast Asia. It lies off the southern tip of the Malay Peninsula and is 137 kilometres (85 mi) north of the equator. The country's territory consists of the lozenge-shaped main island, commonly referred to as Singapore Island in English and Pulau Ujong in Malay, and more than 60 significantly smaller islets. Singapore is separated from Peninsular Malaysia by the Straits of Johor to the north and from Indonesia's Riau Islands by the Singapore Strait to the south. The country is highly urbanized, and little of the original vegetation remains. The country's territory has consistently expanded through land reclamation.

Singapore's progress over the past three decades has been remarkable, yet the island has not been overwhelmed by development. Visitors will discover a wealth of historical treasures from the past, in the beauty of older buildings, values and traditions that have survived in the face of profound social and geographical change.

Singapore is both an island and a country, but perhaps its best description is that of city-state. Like the great city-states of the past, it offers civilization and order in the highest degree. Its combination of Western-style development and Eastern-style calm seems to present the best of both hemispheres: It's a modern metropolis where you feel safe walking the streets, and it's an Asian business center that's a model of efficiency. Singapore is also a multicultural city, and close to one-quarter of its population are expatriates or foreign workers from all over the world. Known for its desire to become the technology hub of Asia, Singapore is the most wired country in the region.
