Invitation...

Dear Colleagues,

Organizing successful conferences has been at the core of Conference Series llc LTD. We are delighted to organize the **20th World Congress on Toxicology and Pharmacology** during **May 06-07, 2019** at **Tokyo, Japan**.

Toxicology Congress 2019 offers a unique platform to present and know the latest updates with a complete approach to diverse areas of interest. As the said by Paracelsus (1493-1541) 'father of Toxicology' goes "All things are with poison and nothing is without poison; only the dose can make a thing not poisonous". Toxicology deals with the study of the correlation between the dose and its subsequent therapeutic effect. The therapeutic effect can convert to toxic effect with the increase in the level of dose. Toxicological studies starts right from the preclinical drug development. These studies are supported by advanced techniques such as In vivo imaging.

Conference Series llc LTD organizes a conference series of 1000+ Global Events inclusive of 300+ Conferences, 500+ Upcoming and Previous Symposiums and Workshops in USA, Europe & Asia with support from 1000 more scientific societies and publishes 700+ Open access journals which contains over 30000 eminent personalities, reputed scientists as editorial board members.

Why Toxicology Congress 2019??

At Toxicology Congress 2019 you can meet the world leading toxicologists, pharmacologists, clinical research professionals, biochemists and also the industrialists who will provide you with the latest innovations and scientific approaches thus help you in widening your scientific knowledge.

The topics of the Congress will reflect the recent advances, current trends, future trends and new approaches in Toxicology and Pharmacology. The congress will cover among others: Mechanisms and modes of action of various toxins, Clinical and Forensic toxicology, Emerging in vitro models, Medicine Development and Safety Testing, Regulatory toxicology and last but not least, a broad scope of pharmacology and toxicology in different fields. Thus, our objective is, to create platforms which will gather eminent scientists who will undoubtedly enrich our congress during the Q&A sections.

Target Audience:

- Academicians including Professors
- PhD Scholars
- Students carrying out laboratory and field studies
- Pharmaceutical Industrial Giants
- Toxicology Societies and the people Associated
- Nobel laureates in Health Care and Medicine
- Pharmacists
- Pharmacologists
- Toxicology Professionals
- Genetic Professionals
- Pathology Professionals
- Forensic Professionals
- Pharmaceutical companies
- Clinical Laboratories and Technicians
- Bio-informatics Professionals
- Research Institutes and members
- Supply Chain companies
- Manufacturing Companies
- Training Institutes
- Business Entrepreneurs

Conference Sessions:

All honourable authors, researchers, scientists and students are encouraged to contribute and help the shape of the conference through submissions of their posters & research abstracts. Also, high quality research contributions describing original and unpublished of conceptual, constructive, experimental or theoretical work in all areas of Toxicology and Pharmacology are warmly invited for presentations at the conference. The conference memorial contributions of abstracts and posters that address themes & future aspects of the conference related sessions.

- Toxicology
- Toxicology and Risk Assessment
- Analytical Toxicology
- Genotoxicity
- Forensic Toxicology
- Food Safety and Environmental Toxicology
- Toxicology Applications
- Experimental and Toxicologic Pathology
- Medical and Clinical Toxicology
- Industrial & Occupational Toxicology
- Toxicology Testing
- Pharmacology
- Applied Pharmacology
- Pharmacological Testing
- Cardiovascular Pharmacology
- Medicine Development and Safety Testing

Tentative Agenda

May 06, 2019 Monday

Time	Session
08:30-09:30	Registrations
09:30-11:30	Keynote Forum
Group Photo	
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Sessions: Toxicology Risk Assessment Medicine Development and Safety Testing
13:00-13:45	Lunch Break**
13:45-16:00	Sessions: Analytical Toxicology Applied Pharmacology Genotoxicity
16:00-16:15	Network & Refreshments Break*
16:15-18:00	Sessions: Forensic Toxicology Cardiovascular Pharmacology Toxicology
Day Concludes	

May 06, 2019 Tuesday

Time	Session
08:30-09:30	Registrations
09:30-10:30	Keynote Forum
10:30-11:30	Sessions: Food Safety and Environmental Toxicology Pharmacology
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Sessions: Medical and Clinical Toxicology Toxicology Testing
13:00-13:45	Lunch Break**
13:45-16:00	Sessions: Industrial & Occupational Toxicology Pharmacological Testing
16:00-16:15	Network & Refreshments Break*
16:15-18:00	Poster Presentations
Day Concludes	
Award Ceremony Conference Concludes	

* Exclusive Exhibitor Event | ** Networking Event

Note: Conference schedule is subject to change.

Note: Workshops and Symposia slots are available. To book slot for Workshop and Symposium send us the proposal.

Tourist Attractions

Venue

Tokyo is Japan's capital and the world's most populous metropolis. It is also one of Japan's 47 prefectures, consisting of 23 central city wards and multiple cities, towns and villages west of the city center. The Izu and Ogasawara Islands are also part of Tokyo. Prior to 1868, Tokyo was known as Edo. A small castle town in the 16th century, Edo became Japan's political center in 1603 when Tokugawa Ieyasu established his feudal government there. A few decades later, Edo had grown into one of the world's most populous cities. With the Meiji Restoration of 1868, the emperor and capital moved from Kyoto to Edo, which was renamed Tokyo ("Eastern Capital"). Large parts of Tokyo were destroyed in the Great Kanto Earthquake of 1923 and in the air raids of 1945.

Greater Tokyo is the world's most populous metropolitan area and is the center of Japanese culture, finance, and government. A bustling cosmopolitan city, Tokyo is also a major transportation hub and a world economic and industrial center. The city boasts a large number of world-class institutions of higher education, the highest concentration of universities in Japan. Tokyo was known as Edo until 1868, when the Japanese imperial family was moved there from Kyoto.
