**20+** Exhibitors

**B2B Meetings**

## Venue

Osaka, Japan

## Accommodation

A large number of rooms have been reserved. Discounted room rates for Toxicology Summit 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

## Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Toxicology and Forensic Science.

## About Osaka

Osaka is a designated city in the Kansai region of Japan. It is the capital city of Osaka Prefecture and the largest component of the Keihanshin Metropolitan Area, the second largest metropolitan area in Japan and among the largest in the world with over 19 million inhabitants. Situated at the mouth of the Yodo River on Osaka Bay, Osaka is the second largest city in Japan by daytime population after Tokyo's 23 wards and the third largest city by nighttime population after Tokyo's 23 wards and Yokohama, serving as a major economic hub for the country. Historically a merchant city, Osaka has also been known as the "nation's kitchen" and served as a center for the rice trade during the Edo period.

Osaka is located on the main island of Honshu, roughly in the center of Japan. Osaka City, which was incorporated in 1889, has a population of 2.69 million and an area of 225.21 square kilometers. Osaka Prefecture, which includes Osaka City (its capital) and 42 other municipalities, has a population of 8.84million and a total land mass of about 1,905 square kilometers. Although Osaka is Japan's second smallest prefecture by size, its population represents 7% of the entire nation, making it the second most populous prefecture after Tokyo. Furthermore, 10% of all non-Japanese residents live in Osaka.
