

International Conference on

Organ Donation and Transplantation Science

April 08-09, 2020 Sydney, Australia

Conference Sessions:

All honorable authors, researchers, scientists and students are encouraged to contribute and help the shape of the Conference through submissions of their posters & research abstracts. Also, high quality research contributions describing Original and unpublished of conceptual, constructive, experimental or theoretical work in all areas of Anesthesiology are warmly invited to exhibit their product at the conference.

- Organ Transplantation
- Trends in Organ Transplantation
- Lung transplant
- Kidney transplant
- Heart transplant
- Organ Rejection
- Organ Donation
- Transplantation Special legal and Ethical problems
- Immunosuppressant
- Cyclosporine
- Kaposi Sarcoma in case of solid organ transplantation
- Medicine – Surgery
- Skin & Tissue Grafting
- Organ Transplantation Market to Ascent Exponentially
- Stem Cell Transplantation
- Drug Delivery in Transplantation
- Transplant Survival and Transplant Living

Important Dates:

Abstract submission opens: September 30, 2019

Registration opens: September 30, 2019

Early bird registration: January 27, 2020

On spot registration: April 08, 2020

Speaker Slots Available

NOTE: Program Schedule is subject to change with final allotment of the speaker slots

Program at Glance

Day 01 | April 08, 2020

| Time | Session |
|-------------|---|
| 08:30-09:30 | Registrations |
| 09:30-11:30 | Keynote Forum |
| | Group Photo |
| 11:30-11:45 | Network & Refreshments Break |
| 11:45-13:00 | Organ Transplantation Trends in Organ Transplantation Lung transplant |
| 13:00-13:45 | Lunch Break |
| 13:45-16:00 | Kidney transplant Heart transplant Organ Rejection Organ Donation |
| 16:00-16:15 | Network & Refreshments Break |
| 16:15-18:00 | Transplantation Special legal and Ethical problems Immunosuppressant |
| | Day Concludes |

Day 02 | April 09, 2020

| Time | Session |
|-------------|---|
| 09:00-11:30 | Cyclosporine Kaposi Sarcoma in case of solid organ transplantation Medicine – Surgery |
| 11:30-11:45 | Network & Refreshments Break |
| 11:45-13:00 | Skin & Tissue Grafting Organ Transplantation Market to Ascent Exponentially |
| 13:00-13:45 | Lunch Break |
| 13:45-16:00 | Stem Cell Transplantation Drug Delivery in Transplantation Transplant Survival and Transplant Living |
| 16:00-16:15 | Network & Refreshments Break |
| 16:15-18:00 | Poster Presentations |

Day Concludes

Award Ceremony

Title: Malignant hyperthermia in a paediatric renal transplant: A case report

Nidhin

Aster medcity hospital, Cochin, Kerala, India

Malignant hyperthermia is a pharmacogenetic disease triggered in susceptible individuals as a hypermetabolic response triggered by halogenated anaesthetics. The incidence of malignant hyperthermia is very less and the incidence occurring while on-going with renal transplant is considerably nil. The possibility of witnessing a malignant hyperthermia perioperative is a nightmare.

In GUH(Gondar University Hospital) large number of surgery is done annually, among these most are done under general anesthesia. Post-operative delayed awakening is one problem of patients who have surgery under general anesthesia. Most commonly, delayed awakening is due to drugs effects persistence, duration and the type of anesthetic given, potentiating by other drugs, low immunity, prolonged NM blockade, metabolic and endocrinal disorders, electrolyte and acid-base disorders and hypothermia may cause delayed emergence from anesthesia.

Title: Prevalence and risk factors of delayed awakening after general anesthesia

Zekariyas Tadesse Asfaw

Debra Berhan Referral Hospital, Ethiopia

Title: Organ Transplantation

Sudha Bansode

Shankarrao Mohite College, Akluj, India

Organ transplantation is the most preferred treatment for many of the end-stage organ diseases as it offers a better quality of life and has a better long-term survival benefits. However, the primary hindrance to the organ transplantation program worldwide is the shortage of donor organs. There is an increasing discrepancy between the number of patients on the waiting list for organ transplantation and the available number of deceased donor organs.

City Attractions

Venue

Sydney is the state capital of New South Wales and the most populous city in Australia and Oceania located on Australia's east coast, the metropolis surrounds the world's largest natural harbour and sprawls about 70 km (43.5 mi) on its periphery towards the Blue Mountains to the west, Hawkesbury to the north and Macarthur to the south. Sydney is made up of 658 suburbs, 40 local government areas and 15 contiguous regions. In addition to hosting events such as the 2000 Olympics, Sydney is amongst the top fifteen most-visited cities in the world, with millions of tourists coming each year to see the city's landmarks. Its natural features include Sydney Harbour, the Royal National Park, and the Royal Botanic Garden. Man-made attractions such as Sydney Tower, the Sydney Harbour Bridge, and the Sydney Opera House, are also well known to international visitors. Kingsford-Smith Airport is the main airport serving the metropolitan area, one of the world's oldest continually operating airports. The Central station is the main hub of the city's rail network.
