# Program Announcement

**12+** Interactive Sessions

**5+** Keynote Lectures

**50+** Plenary Lectures

**5+** Workshops

**20+** Exhibitors

**B2B Meetings**

## Venue

Tokyo, Japan

## Important Dates

Abstract submission opens: September 19, 2018

Registration opens: September 21, 2018

Early bird registration: November 05, 2018

On spot registration: August 14, 2019

## Accommodation

A large number of rooms have been reserved. Discounted room rates for Trauma Congress 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

## Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Trauma, Critical Care and Reconstructive Surgery.

## About Tokyo

Tokyo is often referred to as a city, but is officially known and governed as a “metropolitan prefecture”, which differs from and combines elements of a city and a prefecture, a characteristic unique to Tokyo. The Tokyo metropolitan government administers the 23 Special Wards of Tokyo each governed as an individual city, which cover the area that was the City of Tokyo before it merged and became the metropolitan prefecture in 1943. The metropolitan government also administers 39 municipalities in the western part of the prefecture and the two outlying island chains. The population of the special wards is over 9 million people, with the total population of the prefecture exceeding 13 million. The prefecture is part of the world’s most populous metropolitan area with upwards of 37.8 million people and the world’s largest urban agglomeration economy. The city hosts 51 of the Fortune Global 500 companies, the highest number of any city in the world.

Tokyo ranked first in the Global Economic Power Index and fourth in the Global Cities Index. The city is considered an alpha+ world city – as listed by the GaWC’s 2008 inventor and in 2014, Tokyo was ranked first in the “Best overall experience” category of Trip Advisor’s World City Survey (the city also ranked first in the following categories: helpfulness of locals” “nightlife” “shopping” “local public transportation” and “cleanliness of streets”)
