## Invitation

Dear Colleagues,

Conference Series LLC Ltd is beaming to invite all the experts in the field of Infectious Diseases, Immunology, Virology, for the forthcoming event “**5<sup>th</sup> World Congress on Cardiology and Cardiovascular Therapeutics**” which is going to be held on **August 12-13, 2019** at **Tokyo, Japan**. This Conference focus on HIV Science features the latest HIV science, including basic, clinical and prevention research. It brings together top basic, translational, and clinical researchers from around the world to share the latest studies, important developments, and best research methods in the ongoing battle against HIV/AIDS and related infectious diseases. As HIV/AIDS is an alarming concern throughout the world, WCCCT 2019 will mainly focus on issues like primary HIV Infection, Transmission and eradication issues apart from this HIV Co-infection, HIV Current pharmaceutical design would cover the experimental drugs developed. WCCCT 2019 lays perfect platform for physicians, nurses/nurse-practitioners, pharmacists, psychologists, behavioral researchers, Health care professionals, social scientists, epidemiologists, social workers, AIDS service organization (ASO) staff, students, Academicians and professionals working in the field of HIV medicine.

With Regards,

# Program Announcement

## Venue

Tokyo, Japan

## Important Dates

Abstract Submission Opens: March 25, 2019

Early bird Registration Opens: March 25, 2019

On spot Registration: August 12, 2019

## Accommodation

A large number of rooms have been reserved. Discounted room rates for WCCCT 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

## Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Cardiology and Cardiovascular Therapeutics Care.

## About Tokyo, Japan

Tokyo officially Tokyo Metropolis, is the capital of Japan and one of its 47 prefectures. The Greater Tokyo Area is the most populous metropolitan area in the world. It is the seat of the Emperor of Japan and the Japanese government. Tokyo is in the Kantō region on the south-eastern side of the main island Honshu and includes the Izu Islands and Ogasawara Islands. Formerly known as Edo, it has been the de facto seat of government since 1603 when Shogun Tokugawa Ieyasu made the city his headquarters. It officially became the capital after Emperor Meiji moved his seat to the city from the old capital of Kyoto in 1868; at that time Edo was renamed Tokyo. Tokyo Metropolis was formed in 1943 from the merger of the former Tokyo Prefecture and the city of Tokyo. Tokyo is often referred to as a city, but is officially known and governed as a “metropolitan prefecture”, which differs from and combines elements of a city and a prefecture, a characteristic unique to Tokyo. The Tokyo metropolitan government administers the 23 Special Wards of Tokyo (each governed as an individual city), which cover the area that was the City of Tokyo before it merged and became the metropolitan prefecture in 1943. The metropolitan government also administers 39 municipalities in the western part of the prefecture and the two outlying island chains. The population of the special wards is over 9 million people, with the total population of the prefecture exceeding 13 million. The prefecture is part of the world’s most populous metropolitan area with upwards of 37.8 million people and the world’s largest urban agglomeration economy. The city hosts 51 of the Fortune Global 500 companies, the highest number of any city in the world. Tokyo ranked third in the International Financial Centres Development Index Edit. The city is also home to various television networks such as Fuji TV, Tokyo MX, TV Tokyo, TV Asahi, Nippon Television, NHK and the Tokyo Broadcasting System.
