

## 2nd Webinar on Neurosurgery and Neuroscience

27-Aug-21

09:50-10:00 Session Introduction

10:00-10:30

**Title: Comparison of anterior controllable antedisplacement and fusion (ACAF) with posterior laminoplasty in the treatment of multilevel cervical ossification of the posterior longitudinal ligament: a prospective, randomized and control study with at least one-year follow up.**  
Yu Chen, Department of Spine Surgery, Changzheng Hospital, Second Military Medical University, Shanghai, China

10:30-11:00

**Title: Comparison of anterior controllable antedisplacement and fusion (ACAF) with posterior laminoplasty in the treatment of multilevel cervical ossification of the posterior longitudinal ligament: a prospective, randomized and control study with at least one-year follow up.**  
Yu Chen, Department of Spine Surgery, Changzheng Hospital, Second Military Medical University, Shanghai, China

11:00-11:30

**Title: High Cervical Disc Herniation (C3-C4) With Superimposed Myasthenia Gravis In A 38-year Old Female: A Case Report**  
Godard E. Artajos, East Avenue Medical Center, Department of Neurosciences, Quezon City, Philippines

11:50-12:20

**Title: Allogenic Mesenchymal Stem cell Therapy for CADASIL patient: first clinical Case Report**  
Name: Vahideh Nasr<sup>1\*</sup>, Bitra Shalbafan<sup>2</sup>, Mandana Mohyeddin Bonab  
Shahid Beheshti University of Medical Sciences, Tehran, Iran
