

World Biotechnology - 2019

4th World Biotechnology Congress

December 06-07, 2019 | Sao Paulo, Brazil

Theme: Novel Insights and Innovations in Biotechnology for Leading a Better Life

Sessions/Tracks:

- Biomedical Engineering and Bio-Engineering
- Pharmaceutical Biotechnology
- Genetic Engineering and Tissue Engineering
- Enzyme and Protein Engineering
- Nanobiotechnology
- Microbial and industrial Biotechnology
- Plant, Agriculture and Environment Biotechnology
- Gene Editing with CRISPR Cas9 Technology
- Stem cell Biotechnology
- Marine, Aquatic and Ocean Biotechnology
- Food & Feed Biotechnology
- Animal Biotechnology
- Bioinformatics & Computational Biology
- Industrial and Microbial Biotechnology
- Applied Biotechnology
- Bio-Safety and Bioethics
- Biomass and Bioenergy
- Biofuels and Biomaterials
- Bioprocess and Fermentation Technology
- Bioremediation and Biodegradation
- Biotechnology Industries in the Market
- Global scenario of Bio economy

Offering Academic Special Registration Prices at \$199

Complete Registration waiver for the Students
