Tentative Program

2nd Annual Congress on Medicine

November 13-14, 2020 Bangkok, Thailand

Theme: Research and Innovations in Medicine to Save Lives

*****For available speaker slots*****

worldmedicinecongress@asia-meetings.com

19+ Interactive Sessions

15+ Keynote Lecture

75+ Plenary Lecture

5+ Workshop

Conference Secretariat

Conference Series LLC Ltd, 47 Churchfield road, London W3 6AY. +441234982406

2nd Annual Congress on Medicine

November 13-14, 2020 Bangkok, Thailand

Day-01 November 13, 2020

Time	Session
08:30-09:30	Registrations
09:30-11:00	Keynote Forum
11:00-11:20	Group Photo & Network & Refreshments Break*
11.20-13.00	Pharmaceutical Sciences Surgery Alternative Medicine Medicinal Chemistry Healthcare Cancer Science Neuroscience
13:00-13:45	Lunch Break**
13:45-16:00	Regenerative Medicine Reproductive Health Nursing Immunology Infection Nutrition
16:00-16:15	Network & Refreshments Break*
16:15-17:00	Nutrition Clinical Research Medical Education Medical Innovations

Day Concludes

Day-02 November 14, 2020

Time	Session
08:30-09:30	Registrations
09:30-10:30	Keynote Forum
11:00-11:20	Group Photo & Network & Refreshments Break*
11:20-13:00	Nutrition Clinical Research Medical Education Medical Innovations
13:00-13:45	Lunch Break**
13:45-16:00	Pharmaceutical Sciences Surgery Alternative Medicine Medicinal Chemistry Healthcare Cancer Science
16:00-16:15	Network & Refreshments Break*
16:15-17:00	Neuroscience Regenerative Medicine Reproductive Health Nursing Immunology Infection
17:00-18:00	Poster Presentations

Day Concludes

Award Ceremony

Conference Concludes

Major Scientific Sessions

- Internal Medicine
- Pharmaceutical Sciences
- Surgery
- Alternative Medicine
- Medicinal Chemistry
- Healthcare
- Cancer Science
- Neuroscience
- Regenerative Medicine
- Reproductive Health
- Nursing
- Immunology
- Infection
- Nutrition
- Clinical Research
- Medical Education
- Medical Innovations

Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement
- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors

2nd Annual Congress on Medicine

November 13-14, 2020 Bangkok, Thailand

Accepted Abstracts

Title: Computed Tomography imaging has high diagnostic yield for unintentional weight loss at Counties Manukau District Health Board

Katherine Given, Department of Gastroenterology, Middlemore Hospital, Auckland, New Zealand

Abstract: Unintentional weight loss poses a diagnostic dilemma due to a wide differential diagnosis. Following basic diagnostic investigations, cross-sectional imaging such as CT chest, abdomen and Pelvis (CT-CAP) is often performed with the aim of excluding malignancy. There are no guidelines on which patients should follow this pathway. The purpose of this audit is to evaluate the yield of CT-CAP in these patients, identify predisposing factors for positive findings, and identify inequalities that may exist in our multicultural population.

Title: Contained Rupture of Superior Mesenteric Artery Pseudoaneurysm as a Complication of Aortic Valve Endocarditis in a 24-year-old Female with Rheumatic Heart Disease: A Case Report

Romelie Tuplano, Philippine Heart Center, Quezon City 0850, Philippines

Abstract: A 24-year-old female known with rheumatic heart disease was admitted due to recurrent fever, arthritis and easy fatigability and diagnosed with reactivation of rheumatic fever and infective endocarditis of aortic valve. Culture-guided antibiotics were given. In addition, palpable abdominal mass was also noted. CT aortogram was done showing large aneurysm arising from one of the distal branches of the superior mesenteric artery with contained rupture with chronic intermittent hemorrhage.

Title: Gaba agonist baclofen increases beta cell Mass and c peptide level in patients with type 1 diabetes

Mahmoud younis, Kafr El Sheikh General Hospital

Abstract: At the onset of T1D, more than 70% of β -cells are destroyed (2), whereas the residual β -cells most likely represent the only reservoir for the regeneration of islet β -cell mass (3). It was found that treatment of rodents with GABA (Gamma-Amino Butyric Acid) could convert glucagon-producing cells to large numbers of β -like cells seen both as increased islet size and number. Importantly, this dramatic regeneration could reverse severe diabetes induced by the β cell toxin streptozocin.

Title: Silent Constipation: A Potential Killer

Naznin Esphani, University of Maryland Medical Centre, Baltimore, Maryland, USA

Abstract: Constipation is commonly occurring symptom, and often distressing to patients, when left untreated or undertreated, it may be associated with severe morbidity and/or occasional mortality. Constipation has to be revisited and clinicians/medical residents/students/nursing students/nursing staff, other ancillary medical staff has to get familiarized with term "Silent Constipation".

2nd Annual Congress on Medicine

November 13-14, 2020 Bangkok, Thailand

Title: Exploration of Flavonoid as an Adjuvant Therapy against Breast Cancer

Ramsha Khalid, University of Karachi , Pakistan

Abstract: Breast Cancer, one of the leading causes of death in females, is a complex multifactorial disorder, with the pathophysiology and molecular mechanism still not completely unraveled. It can be hypothesized that the dysregulation of breast cancer associated proteins can potentially lead to malignancies. It has been identified that the B-cell lymphoma 2 (BCI2), eukaryotic initiation factor-4A (EIF4aI) and tumor suppressor p53 proteins are chiefly associated with breast tumorigenesis.

Title: The role and effectiveness of cupping therapy (Hijama) in the management of Pain due to Migraine

Muhammad Amin Baig, Regimental Therapies at Government Recognized Institute of Unani Medicine (Ajmal Tibbia College Rawalpindi) Pakistan

Abstract: Background: Migraine is common headache disorder and can lead to disability. Mostly analgesics are being prescribed having numerous side effects. Wet Cupping is the part of Regimental therapy as a treatment mode of Migraine disease in Unani system of Medicine.

Title: Initial experience with intragastric balloon lexbal ® in the treatment of patients with mild to moderate obesity (type I-II)

Fernando Robledo, Buenos Aires, Argentina

Abstract: Conclusions: Treatment with intragastric balloon, along with a nutritional monitoring allows us to re-educate the patient, and change their eating habits. • Just for gradual diet, and to adapt each phase as tolerated by the patient, helps us to improve dietary behavior and facilitates greater weight loss The intragastric balloon is a safe, well tolerated, with few adverse effects and relatively simple in the hands accustomed to endoscopic practice.

Title: Effect of Ethanolic Leaf Extract of Moringa oleifera on Aluminum-induced Anemia in White Albino Rats

Mohamed E. Shayoub, Department of Pharmaceutics, Faculty of Pharmacy

Abstract: The study aimed to investigate the effect of ethanolic leaf extract of Moringa oleifera on AlCl₃-induced anemia in albino rats. Twenty-four rats (average body weight 284 g) were divided into four groups each of six: group (A) was provided with 0.5 mg/kg body weight of AlCl₃, group (AM) with AlCl₃ and 10 minutes later with M. oleifera extract (300 mg/kg body weight), group (M) with M. oleifera extract (300 mg/kg) alone and the control group (C) with normal saline solution only.

Title: Prescription usage of antibiotics in geriatric patients

Tambe Daniel.A, East West College of Pharmacy, Bengaluru, Karnataka, India

Abstract: Geriatric patients are patients with impaired overall functions. There is no set age, but usually more than 60 years old with chronic illness, physical impairment or cognitive impairment. Evidence shows high prevalence of inappropriate usage of antibiotics in the special population such as geriatrics, which could lead to increase risk of adverse drug reactions, mortality, morbidity, increase cost of treatment and increase antibiotic resistance.

2nd Annual Congress on Medicine

November 13-14, 2020 Bangkok, Thailand

Best Tourist Destinations in Bangkok

2nd Annual Congress on Medicine

November 13-14, 2020 Bangkok, Thailand

About Bangkok

Bangkok, Thailand's capital, is a large city known for ornate shrines and vibrant street life. The boat-filled Chao Phraya River feeds its network of canals, flowing past the Rattanakosin royal district, home to opulent Grand Palace and its sacred Wat Phra Kaew Temple. Nearby is Wat Pho Temple with an enormous reclining Buddha and, on the opposite shore, Wat Arun Temple with its steep steps and Khmer-style spire. Bangkok is the capital and most populous city of Thailand. It is known in Thai as Krung Thep Maha Nakhon or simply Krung Thep. The city occupies 1,568.7 square kilometres (605.7 sq mi) in the Chao Phraya River delta in central Thailand and has a population of over eight million, 12.6 percent of the country's population. Over fourteen million people (22.2 percent) lived within the surrounding Bangkok Metropolitan Region at the 2010 census, making Bangkok the nation's primate city, dwarfing Thailand's other urban centres in both size and importance to the national economy.

Important Dates

Abstract submission opens: [July 31, 2019](#)

Registration opens: [July 31, 2019](#)

Early bird registration: [September 22, 2019](#)

On spot registration: [November 13, 2020](#)

Registration closes: [November 13, 2020](#)
