

29<sup>th</sup> World Congress on

# Nutrition & Dietetics

June 22-23, 2020 | Sydney, Australia

*Theme: Exploring Nutritional Innovations in Malnourished Obese World*

# Invitation...

**Dear Colleagues,**

We are glad to announce the **29<sup>th</sup> World Congress on Nutrition and Dietetics** on **22-23 June 2020** in **Sydney, Australia** in collaboration with generous support and cooperation from enthusiastic academicians and Organizing Committee Members. The Conference will highlight the **"Exploring Nutritional Innovations in Malnourished Obese World."**

**World Nutrition 2020** is a two-day leading scientific meeting uniting the world's leading researchers, nutritionists, dietitians, healthcare professionals, medical centers, universities, labs, businesses, funders, regulation and ethics, medical philanthropies and patient organizations. As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and live interaction with industry leaders and experts. We cordially invite all the participants who are interested in sharing their knowledge and research in nutrition and dietetics.

# Conference Sessions:

All honorable authors, researchers, scientists and students are encouraged to contribute and help the shape of the conference through submissions of their posters & research abstracts. Also, high quality research contributions describing original and unpublished of conceptual, constructive, experimental or theoretical work in all areas of Cardiology and Healthcare are warmly invited for presentations at the conference. The conference memorial contributions of abstracts and posters that address themes & future aspects of the conference related sessions.

- Clinical nutrition
- Nutrition, Metabolism and health
- Nutritional Disorders
- Childhood obesity
- Food Toxicology
- Obesity, Diabetes & Endocrinology
- Nutrigenetics and Nutrigenomics
- Food quality and Nutritional values
- Food Processing and Technology
- Pediatric & Maternal Nutrition
- Food & Nutritional Toxicology
- Current Advances in Nutrition & Food Research
- Food Science and Chemistry
- Holistic/Integrative Nutrition
- Sports Nutrition and Kinesiology
- Traditional Medicine and Ayurvedic Nutrition
- Innovative information in Nutrition

## World Nutrition 2020

- Opportunity to attend the presentations delivered by eminent scientists and business professionals from all over the world.
- Selected contributions will be published in following reputed high impact factor Journals.
  - ☞ Journal of Nutrition & Food Sciences
  - ☞ Journal of Nutritional Disorders & Therapy
  - ☞ Vitamins & Minerals

# Program at Glance

June 22, 2020

Time	Session

## *Sydney, Australia*

Sydney, capital of New South Wales and one of Australia's largest cities, is best known for its harbor front Sydney Opera House, with a distinctive sail-like design. Massive Darling Harbour and the smaller Circular Quay port are hubs of waterside life, with the arched Harbour Bridge and esteemed Royal Botanic Garden nearby. Sydney Tower's outdoor platform, the Skywalk, offers 360-degree views of the city and suburbs. Because of its history as a great port and its status as the site of the country's main international air terminal, Sydney is perhaps the only city in Australia with a genuinely international atmosphere. Yet it remains a very Australian city, with a nice compromise between its British heritage and the South Seas attractions of its climate and environment.

The first sight of Sydney, whether from the sea or the air, is always spectacular. Built on low hills surrounding a huge harbour with innumerable bays and inlets, the city is dominated by the bulk of the Sydney Harbour Bridge, one of the longest steel-arch bridges in the world, and the Opera House, with its glittering white shell-shaped roofs that seem to echo the sails of the many yachts in the adjacent harbour. The intricate confusion of water and buildings makes a striking impression either by day or by night.
