

Clinical Ophthalmology 2019

Day 1 June 14, 2019

10:00-10:05	Registrations
10:05-10:10	Introduction by Moderator
Keynote Forum	
10:15-10:50	Title: First order ether drift experiment
	Ling Jun Wang, University of Tennessee , USA
Group Photo (10:50-10:55)	
Networking & Refreshment Break (10:55-11:10)	
11:10-11:45	Title: High-power high-beam-quality laser from a frequency-quadrupled Nd:Yag laser
	Shenjin Zhang, Technical Institute of Physics and Chemistry, China
11:45-12:20	Medical Photonics, Photo-biomodulation and the Future Disruptive Revolution by Lasers in Medicine
	Richard Satava, University of Washington Medical Centre, USA
12:20-12:55	Title: Spin Lifetime in High Quality InSb Epitaxial Layers Grown on GaAs
	Konstantin Litvinenko, University of Surrey, London
Lunch Break (13:00-14:00)	
Oral Session	
Session: Ophthalmology Laser & Optics Diabetic Eye Disease	
14:20-14:40	Title: Probing acoustics of a modulated plasma through the oscillations of its brightness
	Gilles Courret, University of Applied Sciences and Arts Western Switzerland
14:40-15:05	Title: Retained soft lens matter following routine phacoemulsification and IOL insertion
	Mohammad Rahman, Southend University Hospital, UK
15:05-15:30	Title: 6.45µm laser for tissue ablation with high precision
	Shen Yu, Technical Institute of Physics and Chemistry, China
15:30-15:55	Title: 5.5 mm Temporal MSICS vs 5.5 mm extended incision PKE with implantation of 5.25 mm rigid IOL
	Dr. Sivaji Sarkar, MJM Eye Hospital, India
Refreshment Break (16:00- 16:30)	
16:30-17:00	Title: Management of Phacomorphic Glaucoma
	Dr. Irfan Qayyuna Malik, Gujranwala Medical College, Pakistan
Speaker slot: TBA (17:00 - 17:30)	
Session Adjournment	
Day 2 (Will be updating soon)	
Networking & Lunch
