Yingke Zhao, University of Hong Kong, Hong Kong

Session Discussion

Networking & Refreshment Break

Session Introduction

Cerebellum and spinal cord in the mice of different ages after influence of cuprizone
Nataliia Melnyk, Institute of Genetic and Regenerative Medicine, Ukraine

Herbal A Ameliorates Experimental Autoimmune Encephalomyelitis by Suppressing T cells and Macrophage through NF-κB signaling pathway
Wenting Li, University of Hong Kong, Hong Kong

A Curative Approach for Neuroblastoma Metastatic to the CNS: Safety and efficacy of intraventricular 131I-labeled monoclonal antibody 8H9 targeting the surface glycoprotein B7-H3
Kim Kramer, Memorial Sloan Kettering Cancer Center, USA

Day 2

August 14, 2018

Keynote Forum

Zhi cheng xiao, Monash University, Australia

Tomokatsu Hori, Tottori University, Japan

Rong Fu Wang, Peking University Health Science Center, China

Ahmed Elkashef, National Rehabilitation Center, UAE

Networking & Refreshment Break

Addiction and the brain: molecular impact of stable ΔFosB isoforms in the reward system
Monika H. Seltenhammer, Medical University of Vienna, Austria

Effect Of An Anti Inflammatory On Cognitive Deficits In Diabetic Rats

Gueumekane Bila Lamou E, Neurology Service of Fann Teaching Hospital, Senegal

Targeting Fatty Acids Metabolism as Treatment Strategy of Autism

Afaf El-Ansary, Autism Research and Treatment Center, Saudi Arabia

Zinc/ lipid metabolism-associated autophagy signaling involves in the process of epileptogenesis following developmental seizures

Ni Hong, Soochow University, China

Spinal cord injury changes the expression of the FNDC5 in Purkinje cells of adult male rats cerebellum

Seyed Behnamedin Jameie, Iran University of Medical Sciences, Iran
Workshop

Networking & Lunch Break

Session Introduction

GABA Synaptopathies promotes apoptosis in Egyptian autistic patients
Naima Zayed, National Research Centre, Egypt

Prodromal Symptoms and Signs of First Episode Schizophrenia in Iraq
Shalan J.R., Al-Abbudi, Al-Imamain Al-Kadhimain Medical City, Iraq

The positive clinical consequence of early intervention of combined therapy (omega 3 fatty acids and B12 vitamin) in children under 5 with variable forms of cerebral palsy
Khajik Sirob Yaqob, Member of American academy of nutrition and dietetics, Iraq

Closing Ceremony
Explore Rome

Rome, Italy’s capital, is a sprawling, cosmopolitan city with nearly 3,000 years of globally influential art, architecture and culture on display. Ancient ruins such as the Forum and the Colosseum evoke the power of the former Roman Empire. Vatican City, headquarters of the Roman Catholic Church, has St. Peter’s Basilica and the Vatican Museums, which house masterpieces such as Michelangelo’s Sistine Chapel frescoes.

ROME Attractions

Basilica of San Clemente
Circus Maximus
Roman Forum
Vatican Museums
Colosseum
Fontana Di Trevi
Saint Peter’s Square
Trafalgar
Pantheon
