Welcome Message

4th World Dermatology Congress

June 19-20, 2019 | Berlin, Germany

Ezzat A. Badawy
Alexandria University, Egypt

Dear Colleagues,

On behalf of the organising committee, it is my pleasure to invite all dermatologists, researchers, scientists, academic people and pioneering students to attend and participate in the 4th world Dermatology congress held during June 19-20, 2019 in Berlin, Germany. We welcome you to join us and be a part of knowledge and views in respect to the theme "Accumulating Worldwide Researches on Dermatology". Dermatology is one of the most rapidly growing field in medicine. It is important to be updated with the advanced research and progress in Dermatology. The congress is a wonderful gathering for all dermatologists, cosmetologists, trichologists, Plastic surgeons, physicians and researchers all over the world discussing different aspects of dermatology and its sub-specialities. This Conference will strive to offer plenty of networking, providing you with the opportunity to meet and interact with distinguished dermatologists, scientists, researchers as well as distinctive experts.

We are looking forward to seeing you in Berlin, 4th world Dermatology congress.

Best Regards

Ezzat A. Badawy
Alexandria University, Egypt

About Berlin

Berlin is the capital city of Germany with a population of approximately 3.5 million. Berlin is located in the eastern part of Germany and an important hub to the Eastern European states like Poland. Berlin is the seventh most populous urban area in the European Union and second most populous city in the European Union. Berlin's economy is based on the service sector because it is one of the most popular touristic destinations in Europe. Berlin location is influenced by a temperate seasonal climate due to its location in the European plain. Around one-third of the city's area is composed of forests, canals, parks, gardens, rivers, and lakes. Brandenburg Gate is the Berlin's most famous historic place. It is a 400-meter-long canal the Spree Island is located between the river Spree and the Kupfergraben, Spree Island is well known as Museum Island, a UNESCO World Heritage Site. Here, you can find many of the city's oldest and most beautiful museums. Berlin has created a highly complex transportation framework giving very differing modes of urban mobility. 979 bridges cross 197 kilometres of inner-city waterways, 5,334 kilometres of streets run through Berlin, 73 kilometres are motorways. Berlin is home to world-renowned universities, museums, orchestras, and entertainment venues, and is host to many sporting events.
