Welcome Message

2nd International Conference On **Nursing & Emergency Care**

Mrs Ghada El-Mandoury
Go-Consult
United Arab Emirates

Welcome distinguished guests,

We are beyond excited to announce our second International Conference on Nursing and Emergency Care scheduled on the 26th and 27th of February in the beautiful city of Paris, France.

You will agree with us that Nursing and Emergency Care are two of the most important points for successful healthcare. The basic fundamentals for Nursing and Emergency Care have always been the same, however, nursing practice, administration and instruction have changed in the way they are applied. So, the theme this year will be, "Future Enhancement in the Field of Nursing & Emergency Care".

The changes which happened and will continue happening provide us with great opportunities to change the way we work in the fields of Nursing and Emergency Care. These changes also provide us with the opportunity to re-examine the way which we have been working and how we could improve them in our ever changing environment.

We welcome you to take two days off to come to the conference and invest your time to thrive in your career, interact, share, learn and most importantly enjoy your time with your peers!

Mrs Ghada El-Mandoury
