We watch over the land and sea and in turn they watch over us.

August, 2018

A Message from the Mayor

On behalf of the citizens of Vancouver, and my colleagues on City Council, I want to extend my warmest greetings to all those attending the International Conference on Clinical & Medical Microbiology.

The conference's theme is about "Exploring Innovative research in Clinical & Medical Microbiology" and particularly focusing on educating & spreading the knowledge to the students and young researchers. The City of Vancouver is honoured to be welcoming delegates from all over the world to this conference. I hope that in addition to your busy meeting agenda participants are able to take part in some of the many sightseeing and entertainment activities Vancouver has to offer. There are many educational, cultural and recreational activities to complement the restaurants, shopping and entertainment opportunities in our multicultural city. I am confident all those attending the conference will gain a renewed sense of achievement in past accomplishments and an optimistic view of the future.

Once again, welcome to Vancouver, and I hope you have an enjoyable time at the conference and in our city!

Yours truly,

Gregor Robertson
MAYOR
