

## Welcome Message

3<sup>rd</sup> International Conference on

# Gynecology and Obstetrics

**Prof Takuma Hayashi**  
National Hospital Organization Kyoto Medical Center  
Japan

*Dear Colleagues,*

It is with great pleasure that I greet you on behalf of the 2019 Conference of Gynecology of the 3<sup>rd</sup> International Conference on Gynecology and Obstetrics on June 21-22, 2019 in Osaka, Japan. This year we came up with the theme i.e. *"Exploring new insights in the life journey of women"*.

Following its tradition, this year the conference again offers a wide range of highly interactive sessions with leaders of Gynecology and Obstetrics and to discuss the related issues.

We are delighted that you choose to host the conference in our beautiful city. This conference is a wonderful opportunity to not only educate students and young researchers but deepen understanding of changing ideas and the innovative methods of treatments.

I am convinced that for professionals this is an excellent event that will allow you to learn many new things as well as share you experience.

*See You at Osaka!*
