

Welcome Message

Prof. Dr. Vijayakumar Varadarajan

Adjunct Professor,
School of Computer Science and Engineering,
The University of New South Wales, Sydney,
Australia.

I am honored and delighted to welcome you to the 4th International Conference on Mechatronics, Systems Engineering and Automation going to be held from September 23-24, 2022 in Osaka, Japan.

I am extremely happy that Mechatronics 2022 has been designed to offer a comprehensive range of sessions that includes Current Trends and Future Technologies in the Field of Mechatronics. I hope you have a good time & opportunity to connect with experts from the scientific community and influential entrepreneurs from industries through their lectures and presentations and will also put forward many thought-provoking strategies for a future line of action in the area of Mechatronics, Systems Engineering and Automation.

Mechatronics 2022 offers a diverse scientific program that covers the latest, cutting-edge developments which can change the course of science to benefit human society. The conference consists of excellent plenary talks, keynote talks, technical sessions, and workshops along with industry tech talks. Leading experts get together in this international forum to present their research and share knowledge.

The Young Researchers Forum provides a great opportunity for Ph.D. students and young postdocs to meet up in a friendly, informal, and international atmosphere to discuss and exchange ideas, and to get feedback on their work from leading scientists in the field.

We are looking forward to meeting all of you in Osaka in September 2022 to make Mechatronics 2022 a grand success.

Prof. Dr. Vijayakumar Varadarajan

Adjunct Professor,
School of Computer Science and Engineering,
The University of New South Wales, Sydney,
Australia.
