

*Welcome Message*

18<sup>th</sup> International Conference on  
**Nanotechnology and Nano Engineering**

Dr. Qingde Li  
Faculty of Science and Engineering  
Department of Computer Science and Technology  
University of Hull, UK

**UNIVERSITY  
OF HULL**

*Dear Colleagues,*

It is with great pleasure that I greet you on behalf of the **18<sup>th</sup> International conference on Nanotechnology and Nano Engineering** on **June 22-23, 2020** at **Venice, Italy**. This year we came up with the theme: ***"The Rising Era of Nanotechnology & Nanoengineering"***.

Following its tradition, this year the conference again offers a wide range of highly interactive sessions with Leaders of Nanotechnology and Nano Engineering and to discuss the related issues. We are delighted that you choose to host the conference in this beautiful city Venice. This conference is a wonderful opportunity to not only educate students and young researchers but deepen understanding of changing ideas and innovative methods of treatments.

I am convinced that for professionals this is an excellent event that will allow you to learn many new things as well as share your experience.

*See you at Venice!!!*

**Dr. Qingde Li**
