

Dear Citizen of the World!

Welcome to this conference!

A possibility for you to be inspired and to inspire! When people from different parts of the world come together to ask, “What else can be created on this beautiful planet?” things start to change. A different future is being created.

Isn't this why we do what we do? To create a planet that thrives. Your ideas and your visions contribute to that. What if you give voice to what you know, the world needs it.

What do you know that creates possibilities that sustain our planet?

With joy,

Susanna Mittermaier

Psychologist, Founder of Pragmatic Psychology
