

**20th International Conference on Pharmaceutical Biotechnology
June 15-16, 2022 Vancouver**

Dear Colleagues and Stakeholders in the field!

As a Keynote, it is my great honor and pleasure to invite you to participate in the 20th International Conference on Pharmaceutical Biotechnology June 15-16, 2022 Vancouver, Canada.

Pharmaceutical biotechnology is an effective and growing field in which the principles of biotechnology are applied to developing medicines. Biotechnology helps the pharmaceutical industry to develop new products to improve existing ones. So, for the future it can be expected that the relevance of biopharmaceuticals will further increase.

Therefore, it's a must for the Pharmaceutical Biotechnology 2022 conference to bring together domain experts, researchers, scientist, professors, industry representatives, postdoctoral fellows, and students from around the world, providing them with all the ammunition to develop the science further and prepare launching state of the art solutions for robust and fully integrated workflows for the many different and urgently needed applications.

While pharmaceutical companies are highly working towards the production of medicines and lifesaving vaccines for the entire global community. And when the pharmaceutical industry uses the advances of biotechnology and its sophisticated techniques, the result is better and faster delivery of drugs. Due to this, the importance of participating in this conference becomes more apparent.

In Pharmaceutical Biotechnology conference 2022, you will be able to share experiences and research results, discuss challenges encountered and solutions adopted and have opportunities to establish productive new academic and industry research collaborations.

I'm pretty sure, this conference will be stimulating and productive. Personally, I hope that you will very much enjoy it and benefit!

Best Regards,

Prof. Dr. Seyed Saeid, Zamanieh Shahri, M.D.
